Evinrude® E-TEC® G2 Rigging Essentials

DIGITAL CONTROL DOES NOT NEED TO BE EXPENSIVE

NEW ICON II CONTROL SYSTEMS ARE PERFECTLY SUITED TO DELIVER AN EXCEPTIONAL DRIVING EXPERIENCE AND NOT BREAK THE BANK

Innovation and simplicity in two styles fitting Evinrude® E-TEC® G2 engines 150-300HP.

The result is legendary ICON™ digital control and advanced engineering for a new generation of Evinrude® E-TEC® G2 outboards.

Table of Contents

Rigging Kit, ICON™ II Concealed Side Mount

Select STM ICON™ II rigging kit for engine, boat and instrumentation applications targeting basic shift and throttle capability.

769011 - Concealed Side Mount Control Rigging Kit Includes: 5009752 control and 587344 harness, 5009792, control handle, 359257, handle cover, 764605, remote control cover, 764606, mounting base kit, 764610, mount hardware kit, 587174, 20 foot EST backbone harness, 587184, 15 foot power cable to battery, 764163, 25 foot NMEA backbone harness, 764161, 6 foot extension harness, 767433, power node & tee, 2-764151 tee and 764155 terminator.

Note: Requires additional selection of accessory ignition switch kit. Refer to ignition switch section.

- Refer to ICON™ G2 Connection Diagram for recommended layout and connections.

ICON™ Touch 7.0 Color Touch Screen (CTS)

ICON™ Touch 7.0 CTS features full-color 7-inch touch screen.
Designed for Evinrude® E-TEC® G2.

Major functions and support include:

- Color Touch Screen - Easy to access information – in multiple ways.
- 1, 2, 3 or 4 engine support.
- Mode control for adjustments to power steering, trim assist and for concealed side mount, switching between hand and foot throttle operation.
- Fuel tank levels up to 4 tanks.
- Engine oil level and accessory oil tank levels.
- Water tank levels up to 3 tanks / 3 water types.
- Accessory display of engine water pressure, depth, SOW and water temperatures of sea water, live well and bait well.
- Multi-language – English, French, Italian, German, Spanish.
- Descriptive text for fault codes and procedures.

Predefined, six screen groupings:

- Home page - general cruising and performance information including RPM, trim level, engine water temperature, fuel economy MPG, fuel consumption GPH with and boat speed.
- Engine page - in-depth monitoring of one or up to 4 engines.
- Fuel/Fluids page - precise readouts of fuel levels up to 4 tanks, engine oil levels and water tanks.
- Vessel page - accurate readouts of battery voltage, boat speed, and fuel economy.
- Trip Logs page - regarding trip distance, fuel economy, average speed and more.
- Eco View page - allows the user to optimize engine throttle and trim adjustment for instant changes and the most efficient operation.
- A status bar is always visible with gear position, GPS clock, active throttle, and fault notifications.

Installation Requirements:

- Surface mount dimensions - 10" / 25.4cm wide x 6" / 15.24cm tall.
- Includes drill template, mounting hardware and GPS antenna.

ICON™ Touch 4.3 Color Touch Screen (CTS)

ICON™ Touch 4.3 CTS features full-color 4.3-inch touch screen.
Designed for Evinrude® E-TEC® G2.

Major functions and support include:

- Color Touch Screen - Easy to access information – in multiple ways.
- 1 or 2 engine support.
- Mode control for adjustments to power steering, trim assist and for concealed side mount, switching between hand and foot throttle operation.
- Fuel tank levels up to 4 tanks.
- Engine oil level and accessory oil tank levels.
- Water tank levels up to 1 tank / 1 water type.
- Accessory display of engine water pressure, depth, SOW and water temperatures of sea water, live well and bait well.
- Multi-language – English, French, Italian, German, Spanish.
- Descriptive text for fault codes and procedures.

Predefined, 6 screen groupings:

- Home page - general cruising and performance information including RPM, trim level, engine water pressure, fuel economy MPG, fuel consumption GPH with and boat speed.
- Engine page - in-depth monitoring of one or up to 2 engines.
- Fuel/Fluids page - precise readouts of fuel levels up to 4 tanks, engine oil levels and water tanks.
- Vessel page - accurate readouts of battery voltage, boat speed, and fuel economy.
- Trip Logs page - trip distance, fuel economy, average speed and more.
- Eco View page - allows the user to optimize engine throttle and trim adjustment for instant changes and the most efficient operation.
- The status bar is always visible with gear position, GPS clock, active throttle, and fault notifications.

Installation Requirements:

- Surface mount dimensions - 7.5" / 19.05cm wide x 4" / 10.16cm tall.
- Includes drill template, mounting hardware and GPS antenna.

766285	ICON™ Touch 4.5 CTS - single or twin engines	1
768458	Replacement Bezel, ICON™ Touch 4.3 CTS	1
768400	Sun Cover, ICON™ Touch 4.3 CTS	1

Table of Contents

ICON™ 3.5 Color Screen-Single Engine

ICON™ 3.5 CS features a full-color 3.5-inch screen. Designed for Evinrude® E-TEC® G2.

Major functions and support include:

- Color Screen - Easy to access information.
- 1 engine support.
- Mode control for adjustments to power steering, trim assist and for concealed side mount, switching between hand and foot throttle operation.
- Fuel tank levels up to 2 tanks.
- Engine oil level and accessory oil tank levels.
- Accessory display of engine water pressure.
- Multi-language – English, French, Italian, German, Spanish.
- Notification of faults and recovery actions.

Predefined, intuitive and uncluttered design arranges engine and boat systems information via 5 screen groupings:

- Home page - with two modes: one for general cruising information and another for just basic information such as RPM, trim level, engine water pressure and boat speed.
- Engine page - in-depth monitoring of one Evinrude® E-TEC® G2 outboard.
- Fuel/Fluids page - precise readouts of fuel levels up to 2 tanks and engine oil levels.
- Vessel page - accurate readouts on battery voltage, boat speed, and fuel economy.
- Trip Logs page - offers detailed information regarding trip distance, fuel economy, average speed and more.
- Eco View page - fuel management information allows the user to optimize engine throttle and trim adjustment for instant changes and the most efficient operation.

Installation Requirements:

- Surface mount dimensions - 4" / 10.16cm wide x 4" / 10.16cm tall.
- **Fits standard 3 3/8" round hole.**

E-Link Virtual Dashboard

Convenience of a Virtual Dashboard on your Mobile Device

Evinrude® E-TEC® G2 engine data displayed on a mobile phone or table:

- Plug and play Wi-Fi connection to engine and vessel via NEMA 2000 network..
- Displays engine information including RPM, fuel flow, trim position, oil level and more.
- Displays vessel and accessory information including fuel levels, battery voltage, water depth and more.

Direct control of important engine features:

- Provide engine mode adjustment including i-Trim engine trim control, Dynamic Power Steering level adjustment and winterization.
- Concierge features includes links to “find a dealer” and Evinrude® E-Nation social media site with option to forward engine data to your dealer via e-mail.

An alternative to traditional marine instrumentation:

- Provides the same information and functionality available through Evinrude® ICON digital marine gauges.
- Provides ECO View function to monitor average fuel economy, estimated range and instantaneous fuel use to maximize boat efficiency.

Purchase includes the Evinrude® E-Link Wi-Fi module and a free App download with no membership or subscription fees.

Tie Bars, Steering-Kicker/Auxiliary Outboard Steering Kit

- Install this kit on Evinrude® E-TEC® G2 200-300 HP 74° V6 (3.4 L) Dynamic Power Steering (DPS) models only. **DO NOT install on any other models.**
- Allows steering of the auxiliary outboard by the main engine.
- Designed to fit Evinrude® 15H.O. or other portable outboards with through-tilt tube steering.
- Refer to installation instructions for application limitations.
- Go to BOSSWeb for details.

Engine Covers Evinrude® E-TEC® G2

A custom styled and designed cover to protect the engine from weather and abrasion..

Major Features Include:

- Designed exclusively for Evinrude® E-TEC® G2 outboards 150HP-300HP.
- Contoured and sewn to fit the exact shape of the engine cowling.
- A custom fit and easy to install.
- Solution dyed water repellent polyester fabric.
- Special woven-in soft inner liner won't scratch.
- Superior protection for special engine graphics.
- Designed for over the road towing.
- Key areas reinforced against wear.
- Elastic stretch cords plus hook and loop straps keep the cover tight and secure.
- No loose edges to flap in the wind and abrade the finish.
- No zippers or drawstrings.
- Not designed for engine operation when installed.
- Black with Evinrude® E-TEC® G graphics.

768133

P/N	Description	Pack qty
768856	Evinrude® E-TEC® G2 cover 150 HP - 200 HP	1

Note: Engine covers are non-returnable for Canadian customers.

Table of Contents

Steering Support Brace,Evinrude® E-TEC® G2

Use the Evinrude® steering support brace to maintain straight-ahead alignment of the Evinrude® E-TEC® G2 engine during over the road towing.

Features & Benefits:

- Custom designed for Evinrude® E-TEC® G2 outboards 200HO-300HP.
- Installs between the lower motor mount and stern bracket.
- Prevents steering movement while towing.
- Fits any shaft length.
- Lightweight one-piece design.
- Tough powder paint coating resists chips and scratches.
- **Prevents steering movement when towing.**

768606

P/N	Description	Pack qty
768606	Sterng Support Brace	1

Engine Flush Kit,Evinrude® E-TEC® G2

A front mounted flushing accessory is now available for Evinrude® E-TEC® G2 outboards. Use this kit to provide an

alternate location for fresh water flushing of the engine's cooling system with standard garden hose.

Designed specifically for Evinrude® E-TEC® G2 outboards, the kit installs conveniently into the Dual Axis rigging center and can be neatly tucked away and hidden when not IN USE.

Quick connect couplings snap together with ease and eliminate threaded connections that can seize. Integrated check valves assure proper operation. All parts are included for a complete installation using normal hand tools.

Your customers will appreciate the ease of fresh-water flushing for their Evinrude® E-TEC® G2 outboard engines.

Features & Benefits:

- Easy access, front mounted flushing.
- Hides away when not needed.
- Port or starboard installation.
- Quick connect couplings.
- Uses standard garden hose connection.
- Easy to install with normal hand tools.
- Designed for Evinrude® E-TEC® G2 outboards.
- **Convenient engine flushing for Evinrude® E-TEC® G2 outboards.**

P/N	Description	Pack qty
5010004	Evinrude® E-TEC® G2 Flush Kit	1

Fuel Demand Valve

This valve provides the correct amount of fuel when demanded by the outboard during start up or operation.

EPA approved portable fuel tanks are required to remain sealed up to a minimum pressure of 5 psi (34.5 kPa). Use this valve to ensure that pressurized fuel will not reach the engine or spill out from the fuel system when the outboard is not in use.

• Refer to Service Bulletin 2015-01(P) for complete details.

768304

P/N	Description	Pack qty
768304	Fuel Demand Valve	1

Note: DO NOT use this fuel demand valve kit on 90 H.O. - 300 HP Evinrude® outboards.

Oil Tank Kit - Pontoon Series

This kit is designed to fit 40, 50, 60, 60 H.O., 75 and 90 HP outboards 2010 "F" suffix and newer models (20" and 25" shaft length) with a remote oil tank.

Model	Year	P/N
40, 50, 60	2010 "F" Suffix -thru	768407
60 H.O., 75, 90	2010 "F" Suffix -thru	767511

FEATURES:

- Automatic refill of outboard-mounted oil tanks
- Electrically operated by the low-oil signal in the engine oil tank
- 1.8 (6.81L) gallons of additional oil capacity
- Removing the engine cover is no longer required to refill the tank
- Simple installation

The Evinrude® E-TEC® pontoon series remote oil tank kit includes:

- 1.8 gal (6.81L) oil tank and pump assembly
- 20 ft. SystemCheck® interface wire harness
- Battery power harness
- All outboard oil tank conversion parts

E-RIG Rigging Configurator

The recommended rigging selection tool.

BRP is excited to announce Evinrude® E-RIG, Evinrude's newest outboard rigging component selection tool.

E-RIG is a user-friendly web-based tool designed to make selection of Evinrude® rigging components efficient and easy. You can match selection of rigging components specifically to your customers boat application and design.

E-RIG key features are:

- No setup, special software or extra cost required
- Simple point and click selection based on the engine model and horsepower
- Streamlines the building of a line-by-line customized rigging order
- Assembles Evinrude® rigging packages for single and multiple engines
- Pictures of all components
- Capability to print an order for review or save into a file for future use
- Options to display pricing at cost, suggested retail or no pricing at all
- Order placement with a P.O. is point and click direct through E-RIG
- Your pricing shown is the same as invoice

For one boat or 20, the new Evinrude® E-RIG tool will simplify the process of quickly selecting and ordering the right rigging parts the first time. E-RIG is available now on BOSSWeb. Go to BOSSWeb and navigate to the PARTS section. Just click on the [E-RIG Rigging Configurator](#) link to launch the application to get started on your first order.

If you have questions or need assistance with any of the information, please call your BRP Sales Representative.

Evinrude® E-TEC® G2 Rigging Selection

If using a manual process select rigging for Evinrude® E-TEC® G2 outboards in the following steps:

1. Select the Evinrude® E-TEC® G2 ICON™ II shift and throttle rigging kit per application.
2. Select battery cables and propeller hub.
3. Select instruments: ICON™ CTS display, I-Command™ digital, ICON™ Basic, ICON™ Pro or digital to analog converter.
4. Select accessories.
5. Select steering for multiple engines.
6. Select fuel components.
7. Select propeller.

Evinrude® E-TEC® G2 Rigging Essentials

Starting with the introduction of the Evinrude® E-TEC® G2 outboard, Evinrude® engineers pushed the throttle forward with new enhancements for this next generation of digitally controlled outboards.

TOP MOUNT BINNACLES

First is the new styling of the top-mount binnacles, with excellent ergonomics designed to reduce fatigue and provide smooth, predictable control. Key features of RPM Tune™ and PowerSync™ enable drivers to maximize performance and enhance their overall experience.

CONCEALED SIDE MOUNT CONTROL

Second is the concealed side mount control with unrivaled functionality and an accessory foot throttle. Using the Evinrude® ICON™ color display panels, drivers can easily toggle between hand and foot throttle control. The user benefits of this system are numerous from an automotive-like driving experience, to the reduced fatigue of keeping both hands on the steering wheel to the smooth and predictable throttle inputs you would expect from your car or truck.

i-DOCK

All-new for incorporation with the Evinrude® E-TEC® G2 Rigging Essentials is the Evinrude® i-Dock for multiple engine boats. i-Dock takes advantage of the E-TEC® G2's digital throttle and shift control plus power steering to allow a small joystick to be used for docking or other tight maneuvering. This easy-to-operate joystick takes the intimidation factor out of performing tight maneuvers and thus can be a welcome addition for all boaters.

ICON™ COLOR DISPLAYS

3 sizes of Evinrude® ICON™ Touch color instruments offer even more choice and customization enhancing the on-water experience. These ICON™ displays feature rugged and refined casings, cool, contemporary design, easy access, easy-to-read indications and screens with information organized for the customer in the way THEY want, without clutter.

INTEGRATED SYSTEMS

Together, the combination of the ICON™ II controls, color instrumentation, foot throttle options and joystick control are exceptionally flexible and functional user interfaces that offer the benefits of confidence, control and premium feel your customers would expect when operating the most advanced outboard in the world.

Refer to the following pages for the complete listing of ICON™ II rigging kits, and recommended components for Evinrude® E-TEC® G2 outboards.

Evinrude® E-TEC® G2 Rigging Selection

Evinrude® recommends selection of rigging components based on the number of engines to be installed and the type of controls required for that boat.

Find the Evinrude® E-TEC® G2 rigging selection chart that matches the application. Then follow the step-by-step process to select the rigging and required accessories.

Evinrude® E-TEC® G2 Single Engine Concealed Side Mount Control

Step 1: Select the rigging kit. Main station rigging includes: remote control, key switch plus all required wires and harnesses for the main station.
Step 2: Select an ignition switch and stop switch configuration to match application requirement.
Step 3: Select battery cable by required length.
Step 4: Select G2 TBX hub kit to install Evinrude® stainless steel propellers.
Step 5: Select instrumentation. Select color display or DAC for analog gauges.
Step 6: Select CSM rigging accessories.
Step 7: Select Evinrude® propeller.

Rigging Kit, ICON™ II Premium Concealed Side Mount

768750 - Concealed Side Mount Control Rigging Kit Includes: 766565 Control and 587224 harness, 587174, 20 foot EST backbone harness, 766592, 15 foot power to battery cable, 764163, 25 foot NMEA backbone harness, 764161, 6 foot extension harness, 767433 power node, 2-764151 tee and 764155 terminator.

- Refer to ICON™ G2 Connection Diagram for recommended layout and connections.

Adapter Kit-Ranger® Ignition Module

Evinrude® E-TEC® Ranger® Touch Pad Adapter Module.
For Ranger® boats equipped with the push button key pad.

- This kit is required to adapt the Ranger® boats touch pad power and ignition system to be compatible with the Evinrude® E-TEC® G2 ignition system.
- Kit installs inside the drive console area.

Evinrude® E-TEC® G2 Single Engine Binnacle

Step 1: Select the main station rigging kit. Main station rigging includes: remote control, key switch plus all required wires and harnesses for the main station.
Step 2: Select an ignition switch and stop switch configuration to match application requirement.
Step 3: Select battery cable by required length.
Step 4: Select G2 TBX hub kit to install Evinrude® stainless steel propellers.
Step 5: Select instrumentation. Select color display or DAC for analog gauges.
Step 6: Select Evinrude® propeller.

Rigging Kit, ICON™ II Premium Single Engine Binnacle Control

768752 - Single Top Mount Binnacle Control Rigging Kit Includes: 766563 Control and 587168 harness, 587175, 25 foot EST backbone harness, 766592, 15 foot power cable to battery, 587185, 5 foot extension battery power, 764163, 25 foot NMEA backbone harness, 764161, 6 foot extension harness, 765132, 2 foot extension harness, 767433 power node & tee, 2-764151 tee and 764155 terminator.

767983 - Single Top Mount Binnacle Control Rigging Kit Second Station Includes: 766563 Control and 587168 harness, 587180, 15 foot EST backbone harness, 587172, 6 port hub, 766952, 15 foot power to battery cable, 766596 battery power Y cable, 766555 Ignition switch, 764162, 15 foot NMEA extension harness's and 764151 tee.

- Refer to ICON™ G2 Connection Diagram for recommended layout and connections.

Step 1

P/N	Description	Pack qty
768752	Main Station, Premium Binnacle Control Rigging Kit	1

Evinrude® E-TEC® G2 Dual Engine Binnacle

Step 1: Select the main station rigging kit. Main station rigging includes: remote control, key switch plus all required wires and harnesses for the main station.
Step 2: Select an ignition switch and stop switch configuration to match application requirement.
Step 3: Select battery cable by required length and number of engines.
Step 4: Select G2 TBX hub kit to install Evinrude® stainless steel propellers.
Step 5: Select instrumentation. Select color display or DAC for analog gauges.
Step 6: Select steering tie bars based on engine center line dimensions.
Step 7: Select Evinrude® propeller.

Rigging Kits, ICON™ G2 Dual Engine Binnacle Control

768754 - Dual Engine Top Mount Binnacle Control Rigging Kit, Single Station Includes: 766564 Control and 587225 harness, 587180, 15 foot EST backbone harness, 587175, 25 foot EST backbone harness, 587172, 6 port hub, 766592, 15 foot power cable to battery, 587185, 5 foot extension battery power, 764163, 25 foot NMEA backbone harness, 2 of 764162, 15 foot extension harness, 765132, 2 foot extension harness, 767433 power node & tee, 3-764151 tee, and 764155 terminator.

767985 - Dual Engine Top Mount Binnacle Control Rigging Kit, Second Station Includes: Control and harness, 587170, 15 foot EST backbone harness, 766592, 15 foot battery power cable, 766558 engine start stop panel, 764162, 15 foot NMEA backbone harness, 587172, 6-port hub, 764151 Tee and 766596 battery adapter harness.

- Refer to ICON™ G2 Connection Diagram for recommended layout and connections.

Universal Repower Rigging System, ICON™

The Universal Repower Rigging System is a boat mounted device used to convert push/pull mechanical control cable movement into digital shift and throttle operation.

Product features and benefits are:

- Use for lowest cost repower.
- Allows use of existing SystemCheck® mechanical controls, Snap-In control cables and SystemCheck® wiring.
 - Compatible with Evinrude® Surface Side Mount control, Concealed Side Mount control, Single Binnacle control and Single Binnacle control with key.
 - Also compatible with aftermarket controls and SAE type control cables and adapters.
 - Does not allow networking of multiple engines and instruments.
- Integrated support for analog gauges or digital gauges.
- **Recommended for single engines only (150-300 hp).**
 - Kit includes converter box and electronic module, wire harness (766596), 15 feet power supply cable (766592), 15 feet network backbones (587173, 764161, 764162), tees (764151), power node (767433), terminator kit (764155) and installation hardware.
 - Mechanical controls, control cables, SystemCheck® wires, key switch and instruments are purchased separately if required

P/N	Description	Pack qty
767682	Universal Repower Rigging System	1

Note: Does not provide capability for mode control of trim assist, power steering and hand to foot throttle transfer.

ICON™ Touch 7.0 Color Touch Screen (CTS)

ICON™ Touch 7.0 CTS features full-color 7-inch touch screen.
Designed for Evinrude® E-TEC® G2.

Major functions and support include:

- Color Touch Screen - Easy to access information – in multiple ways.
- 1, 2, 3 or 4 engine support.
- Mode control for adjustments to power steering, trim assist and for concealed side mount, switching between hand and foot throttle operation.
- Fuel tank levels up to 4 tanks.
- Engine oil level and accessory oil tank levels.
- Water tank levels up to 3 tanks / 3 water types.
- Accessory display of engine water pressure, depth, SOW and water temperatures of sea water, live well and bait well.
- Multi-language – English, French, Italian, German, Spanish.
- Descriptive text for fault codes and procedures.

Predefined, six screen groupings:

- Home page - general cruising and performance information including RPM, trim level, engine water temperature, fuel economy MPG, fuel consumption GPH with and boat speed.
- Engine page - in-depth monitoring of one or up to 4 engines.
- Fuel/Fluids page - precise readouts of fuel levels up to 4 tanks, engine oil levels and water tanks.
- Vessel page - accurate readouts of battery voltage, boat speed, and fuel economy.
- Trip Logs page - regarding trip distance, fuel economy, average speed and more.
- Eco View page - allows the user to optimize engine throttle and trim adjustment for instant changes and the most efficient operation.
- A status bar is always visible with gear position, GPS clock, active throttle, and fault notifications.

Installation Requirements:

- Surface mount dimensions - 10" / 25.4cm wide x 6" / 15.24cm tall.
- Includes drill template, mounting hardware and GPS antenna.

**ICON™ Touch 4.3 Color Touch Screen (CTS)**

ICON™ Touch 4.3 CTS features full-color 4.3-inch touch screen.
Designed for Evinrude® E-TEC® G2.

Major functions and support include:

- Color Touch Screen - Easy to access information – in multiple ways.
- 1 or 2 engine support.
- Mode control for adjustments to power steering, trim assist and for concealed side mount, switching between hand and foot throttle operation.
- Fuel tank levels up to 4 tanks.
- Engine oil level and accessory oil tank levels.
- Water tank levels up to 1 tank / 1 water type.
- Accessory display of engine water pressure, depth, SOW and water temperatures of sea water, live well and bait well.
- Multi-language – English, French, Italian, German, Spanish.
- Descriptive text for fault codes and procedures.

Predefined, 6 screen groupings:

- Home page - general cruising and performance information including RPM, trim level, engine water pressure, fuel economy MPG, fuel consumption GPH with and boat speed.
- Engine page - in-depth monitoring of one or up to 2 engines.
- Fuel/Fluids page - precise readouts of fuel levels up to 4 tanks, engine oil levels and water tanks.
- Vessel page - accurate readouts of battery voltage, boat speed, and fuel economy.
- Trip Logs page - trip distance, fuel economy, average speed and more.
- Eco View page - allows the user to optimize engine throttle and trim adjustment for instant changes and the most efficient operation.
- The status bar is always visible with gear position, GPS clock, active throttle, and fault notifications.

Installation Requirements:

- Surface mount dimensions - 7.5" / 19.05cm wide x 4" / 10.16cm tall.
- Includes drill template, mounting hardware and GPS antenna.

ICON™ 3.5 Color Screen-Single Engine

ICON™ 3.5 CS features a full-color 3.5-inch screen. Designed for Evinrude® E-TEC® G2.

Major functions and support include:

- Color Screen - Easy to access information.
- 1 engine support.
- Mode control for adjustments to power steering, trim assist and for concealed side mount, switching between hand and foot throttle operation.
- Fuel tank levels up to 2 tanks.
- Engine oil level and accessory oil tank levels.
- Accessory display of engine water pressure.
- Multi-language – English, French, Italian, German, Spanish.
- Notification of faults and recovery actions.

Predefined, intuitive and uncluttered design arranges engine and boat systems information via 5 screen groupings:

- Home page - with two modes: one for general cruising information and another for just basic information such as RPM, trim level, engine water pressure and boat speed.
- Engine page - in-depth monitoring of one Evinrude® E-TEC® G2 outboard.
- Fuel/Fluids page - precise readouts of fuel levels up to 2 tanks and engine oil levels.
- Vessel page - accurate readouts on battery voltage, boat speed, and fuel economy.
- Trip Logs page - offers detailed information regarding trip distance, fuel economy, average speed and more.
- Eco View page - fuel management information allows the user to optimize engine throttle and trim adjustment for instant changes and the most efficient operation.

Installation Requirements:

- Surface mount dimensions - 4" / 10.16cm wide x 4" / 10.16cm tall.
- **Fits standard 3 3/8" round hole.**

Gauge Converter Kit, ICON™ G2

Used to convert Evinrude® E-TEC® G2 digital engine data to analog SystemCheck® data.

- Allows use of standard analog or SystemCheck® Tachometers or SystemCheck® gauge with Evinrude® E-TEC® G2.
- Converts digital engine data – RPM, trim, low oil, no oil, overheat and check engine warnings into analog signals.
- Suggested use is repower applications to reduce cost by reuse of existing analog gauge installations.
- **Fit to ICON™ II Premium and ICON™ II CSM controls ONLY.**

766611	Wire harness - dual engines	1

Note: Does not provide capability for mode control of trim assist, power steering and hand to foot throttle transfer.

ICON™ Gauges, Pro Series

ICON™ PRO offers digital performance wrapped in an analog look with increased functionality in an LCD window.

- Specialized functions include GPS speed, fuel management, fuel economy, trip logs and many more.
- It's plug and play. Connects directly into the existing Evinrude® NMEA 2000 network.
- Works on Evinrude® E-TEC® 40-hp through 300-hp.
- Supports up to 4 engines.
- Supports up to 4 fuel tanks.
- Accessory gauges provide dedicated display of water pressure, fuel level, battery volts, engine trim, engine temperature and oil tank level.
- Multi-language support.
- Engine fault warning lights.
- Fog resistant lens.
- Fault code support for Evinrude® E-TEC® G2.
- Support for Evinrude® E-TEC® G2 mode control of DPS and i-Trim.
- Does not support Evinrude® E-TEC® G2 foot throttle transfer.

Chrome Bezel, White Dial Face or Black Dial Face

ICON™ Gauges, Pro 3.5" Diameter

ICON™ PRO offers digital performance wrapped in an analog look with increased functionality in an LCD window.

Black P/N	White P/N	Description	Pack qty
768007	768008	3" (89mm), ICON Pro LCD 7000 RPM Tachometer Kit , Chrome	1
768053	768054	3" (89mm), ICON Pro LCD 50 MPH Speedometer Kit , Chrome	1
768055	768056	3" (89mm), ICON Pro LCD 80 MPH Speedometer Kit , Chrome	1

ICON™ Gauges, Basic 3-n-1, 5" Diameter

ICON™ Multi-function 3-n-1 gauges offer high visibility and compact installation. Two gauges offer 7 major functions - single engine applications.

- Single engine application
- Single fuel tank support
- Tachometer support of RPM, Engine Temperature and Engine Trim
- Speedometer support of MPH, Fuel Level and Voltage
- Engine fault warning lights - low oil, no oil, overheat and check engine

Black P/N	White P/N	Description	Pack qty
766160	766183	5" (127mm), 3-in-1, ICON Basic Tachometer, Engine Temperature & Trim Kit	1
766166	766189	5" (127mm), 3-in-1, ICON Basic Speedometer Kit, 80 Mph with Fuel & Volt	1

ICON™ Gauges, Basic Series

ICON™ Basic offers digital performance with an analog look.

- Basic functions in a high value, lower cost package
- User Friendly - no push buttons to push, no setup required. Just straight accurate engine information.
- It's plug and play. Connects directly into the existing Evinrude® NMEA 2000 network
- Easy plug and play daisy chain connections between the tachometer and accessory gauges simplify wiring.
- Works on Evinrude® E-TEC® 40-hp through 300-hp.
- Supports up to 2 engines
- Supports up to 2 fuel tanks
- Accessory gauges provide dedicated display of water pressure, fuel level, battery volts, engine trim, engine temperature and oil tank level.
- Engine fault warning lights — low oil, no oil, overheat, check engine
- Fog resistant lens

Water Pressure Sensor Kit, Evinrude® E-TEC® G2

Required to view water pressure on ICON™ Touch gauges, ICON™ gauges or I-Command™ gauges.

- I-Command™ water pressure sensor works with all Evinrude® E-TEC® outboards supporting I-Command™ and ICON™ gauges.
- Includes engine mounted sensor and wire harness.
- Water pressure information transmitted via engine EMM.

5008640

P/N	Description	Pack qty
5008640	Block Mounted Water Pressure Sensor Kit, one per engine (0-60 PSI maximum pressure range) - 115-300 HP 2012 thru	1

Battery Charging Kit - Evinrude® E-TEC® G2

200-300 HP - Allows charging of one additional battery per engine. Provides isolated charging of auxiliary battery.

- 16 foot / 4.8 m long.
- Connect between the engine and the auxiliary battery.

5009079

P/N	Engine	Year
5009079	Auxiliary Battery Charging Kit (16')	

Note: Evinrude® E-TEC® G2 only

Connectors - Trim "Y"

Oil Tank Kit - Remote, Evinrude® E-TEC® G2 150-300 hp

Use to add extra oil capacity and extend engine cruising range between oil fills.

Automatic operation by engine with trigger of low oil warning. Oil tank includes custom oil pump to auto-replenish engine oil tank.

- Standard size 1.8 gallon includes 15' length hose and mounting hardware.
- Standard size 3.0 gallon oil tank includes 30' length hose and mounting hardware.
- Select accessory oil level sender to monitor remote tank oil level

Oil Level Converter Kits with Sender

Used to add oil level sender capability to 1.8 and 3.0 gallon oil tank.

- Allows display of remote oil tank level into ICON™ Touch color displays.
- Oil level converter kits include the converter cable, an oil level sensor and network tees.
- Requires installation to the oil tank.

764271

P/N	Description	Pack qty
764271	Oil Level Converter Kit - Single Engine (1.8 gallons)	1
764273	Oil Level Converter Kit - Dual Engine (1.8 gallons)	1
764272	Oil Level Converter Kit - Single Engine (3.0 gallons)	1
764274	Oil Level Converter Kit - Dual Engine (3.0 gallons)	1

Oil Pump Assembly-Remote, Evinrude® E-TEC® G2 150-300 hp

Installed into a boat mounted oil tank to provide extra oil capacity and extend the boat cruising range between oil fills.

Automatically replenishes engine oil tank from a boat mounted oil tank with activation of the low oil warning - no user input required.

Two sizes of oil pump kits are available based on oil tank depth.

- 767686 maximum tank depth of: 7.0 inches (17.78 cm)
- 768241 maximum tank depth of: 9.0 inches (22.86 cm)

- Recommended for 10 gallon oil tank P/N 776580 - or other custom made oil tanks with maximum depth of 9".
- Can also be added to 5008572, 3.0 gallon remote oil tank to support dual engines with only one boat mounted tank.
- Select quantity one per engine.

Oil Tank Assembly - 10 Gallon

For twin and triple engine installations, direct injection or carbureted. Uses Evinrude®/Johnson® oil pick up assembly p/n 5008614 - one pickup assembly per engine. Installer will be required to drill a third hole for third engine oil pickup.

- 11.25" H x 30.75" L x 9" W
- Two holes drilled for twin pickups
- Oil level sender
- Molded fitting for fill and vent hose
- Select additional oil level converter kit, I-Command™ oil level signal converter kit, single tank.

776580

Warranty to be provided by Rabud™.

P/N	Description	Pack qty
776580	10 Gallon Tank Assembly	1

Oil Level Converter Kits

- Allows display of remote oil tank level into ICON™ Touch color displays.
- Converts analog sending unit to digital signal.

P/N	Description	Pack qty
763737	Oil Level Converter Kit - 10 Gallon Tank	1

Oil Fill Kit, Remote

Mounts on deck for remote filling of oil injection tank.

- Includes tank cap and vented deck fitting

176461

766907	25' Oil Fill Hose to Connect Kit and Tank (not for gasoline) - 1½" I.D.	1

Steering Tie Bars, Installation

Number of Outboards	Kits Required
2	(1 of 766568) or (1 of 766569)
3	(1 of 766568) + (1 of 766608) or (1 of 766569) + (1 of 766609)
4	(1 of 766568) + (2 of 766608) or (1 of 766569) + (2 of 766609)

When installing three or four engines, the center outboard(s) should be mounted no more than one mounting hole location lower or higher to prevent the tie bars from binding at all tilt or turn angles. For Center engines that require an offset greater than one mounting hole, refer to the custom tie bar kits from Latham Marine.

1. Center engine mounted using 2nd hole.
2. Port & starboard engines mounted using 3rd hole.

IMPORTANT: After the outboards have been installed, verify clearance at all tilt and steering angles.

Tie Bars, Steering-Twin Engines, Evinrude® E-TEC® 150-300 hp Engines

- Steering tie bar, Dual engine
- Includes all mounting hardware

Hose Kits, Hydraulic, Evinrude® E-TEC® G2 Engine

Hoses labeled "1" are rated 3000 PSI minimum and must be supplied by BRP. Use the table below to select the required hose kits.
 Hoses labeled "2" can be any hose approved by the helm manufacturer.

**Important**

Use the BRP hydraulic hose kits listed below. Two hose kits are required per installation. These hoses have a pressure rating of 3000 psi. **DO NOT** use any other hoses.

P/N	Description	Pack qty
768204	Hydraulic Hose Kit - 4' (1.22 M)	1
768206	Hydraulic Hose Kit - 6' (1.82 M)	1
768208	Hydraulic Hose Kit - 8' (2.44 M)	1
768210	Hydraulic Hose Kit - 10' (3.04 M)	1

768224	Hydraulic Hose Kit - 24' (7.32 M)	1

Tie Bars, Steering-Kicker/Auxiliary Outboard Steering Kit

- Install this kit on Evinrude® E-TEC® G2 200-300 HP 74° V6 (3.4 L) Dynamic Power Steering (DPS) models only. **DO NOT install on any other models.**
 - Allows steering of the auxiliary outboard by the main engine.
 - Designed to fit Evinrude® 15H.O. or other portable outboards with through-tilt tube steering.
 - Refer to installation instructions for application limitations.
- Go to BOSSWeb for details.

Hose - Fuel Line-EPA Guidelines

The EPA and CARB have mandated reduced fuel permeation from specific fuel system components. The legislation applies to all marine manufacturers and component suppliers of fuel hoses, primer bulbs and portable fuel tanks.

BRP achieved the EPA mandate and CARB compliance for low permeation fuel hoses in 2009. The EPA and CARB requirement for low permeation primer bulbs and portable fuel tanks went into effect on January 1, 2011 and BRP has now met that requirement.

As a user of Evinrude®/Johnson® Genuine Parts you can install and sell our components with complete confidence of compliance to the regulations and achieving the same level of durability, reliability and quality.

The fuel components listed are all EPA and CARB compliant.

Hose - Fuel Line Bulk, EPA Compliant

Bulk fuel line may be shipped in a non-continuous roll.

- Priced by the foot in multiples of dealer pack quantity
- SAE J30R9 rated hose (EPA compliant)
- Meets USCG B1-15 spec
- 772576 also meets USCG A-1 spec

E-RIG Rigging Configurator

The recommended rigging selection tool.

BRP is excited to announce Evinrude® E-RIG, Evinrude's newest outboard rigging component selection tool.

E-RIG is a user-friendly web-based tool designed to make selection of Evinrude® rigging components efficient and easy. You can match selection of rigging components specifically to your customers boat application and design.

E-RIG key features are:

- No setup, special software or extra cost required
- Simple point and click selection based on the engine model and horsepower
- Streamlines the building of a line-by-line customized rigging order
- Assembles Evinrude® rigging packages for single and multiple engines
- Pictures of all components
- Capability to print an order for review or save into a file for future use
- Options to display pricing at cost, suggested retail or no pricing at all
- Order placement with a P.O. is point and click direct through E-RIG
- Your pricing shown is the same as invoice

For one boat or 20, the new Evinrude® E-RIG tool will simplify the process of quickly selecting and ordering the right rigging parts the first time. E-RIG is available now on BOSSWeb. Go to BOSSWeb and navigate to the PARTS section. Just click on the [E-RIG Rigging Configurator](#) link to launch the application to get started on your first order.

If you have questions or need assistance with any of the information, please call your BRP Sales Representative.

ICON™ Digital Shift & Throttle Rigging Selection

If using a manual process select ICON™ rigging in the following steps:

1. Select ICON™ Digital Shift and Throttle rigging kit per application.
2. Select ICON™ actuator kit.
3. Select instrument style and type: ICON™ or I-Command™ digital.
4. Select oil tanks.
5. Select fuel components.
6. Select propeller.

ICON™ System

ICON System - Main Station
Electronic Shift and Throttle Remote Control, Gauges, and Harnesses
Single Engine

ICON System		I-Command Digital Network	
Item	Description	Item	Description
1	Buss Cable Extension	7	Master Power/Key Switch
2	Protective Caps	8	Gateway Module
3	Hub	9	Buss Cable Extension
4	Buss Cable Backbone	10	Accessory Power Relay
5	Remote Control	11	Network Power Cable
6	Start/Stop Switch Panel		

Use *ICON* System rigging kits for the selection of an *ICON* network. Rigging kits include most components used for *ICON* System installations.

First, select one main station rigging kit per vessel for 1, 2, 3, 4, or 5 engine installations.
 Next, select a second station rigging kit for a dual station installation.

ICON conversion kits can be used to convert newer *Evinrude E-TEC* models. *ICON* conversion kits are available for models built without *ICON* components.

150-200 HP 60° V6 - available for 2008 and newer models
 200-300 HP 90° V6 - available for 2008 and newer models

Additional *I-Command Digital Network* components are listed in the *I-Command Digital Network* section.

Choose oil tanks, fuel system components, steering components, and propellers to complete boat rigging.

Rigging Kit, ICON™ Single Engine Concealed Side Mount

- Refer to ICON™ Rigging Kit Selection Chart for listing of included components.
- Refer to ICON™ Connection Diagram for recommended layout and connections.

P/N	Description	Pack qty
767052	Main station, Concealed Side Mount, 20 ft. backbone, 15 ft. engine cable	1

Rigging Kit, ICON™ Single Engine Binnacle Control

- Refer to ICON™ Rigging Kit Selection Chart for listing of included components.
- Refer to ICON™ Connection Diagram for recommended layout and connections.

P/N	Description	Pack qty
767042	Main station, Binnacle control, 20 ft. backbone, 15 ft. engine cable	1
767043	Second station, Binnacle control, 15 ft. second station extension cable	1

Rigging Kits, ICON™ Multiple Engine Binnacle Control Main Station

- Refer to ICON™ Rigging Kit Selection Chart for listing of included components.
- Refer to ICON™ Connection Diagram for recommended layout and connections.

P/N	Description	Pack qty
767044	Dual engine, Binnacle control, 25 ft. backbone, 15 ft. engine cable	1
767046	Triple engine, Binnacle control, 25 ft. backbone, 15 ft. engine cable	1
767048	Four engine, Binnacle control, 25 ft. backbone, 15 ft. engine cable	1

Rigging Kits, ICON™ Multiple Engine Second Station

Binnacle Control

- Refer to ICON™ Rigging Kit Selection Chart for listing of included components.
- Refer to ICON™ Connection Diagram for recommended layout and connections.

P/N	Description	Pack qty
767045	Dual engine, Binnacle control, 15 ft. second station extension cable	1
767047	Triple engine, Binnacle control, 20 ft. second station extension cable	1
767049	Four engine, Binnacle control, 20 ft. second station extension cable	1

Engine Add-On Kit, ICON™

- Used to add ICON™ actuators for electronic shift & throttle to Evinrude® E-TEC® 150-300 HP, 2008-thru (NOT "DE" models).

P/N	Description	Application
587279	ICON™ engine add-on kit, 2008 & newer, 200 H.O. - 300 HP	ICON™ engine add-on kit, 2008 & newer, 200 H.O. - 300 HP
587280	ICON™ engine add-on kit, 2008 & newer, 135 - 200 HP	ICON™ engine add-on kit, 2008 & newer, 135 - 200 HP

Trim Plates, ICON™

Used to cover cutout hole of BRP mechanical shift binnacle controls.

P/N	Description	Pack qty
765075	Trim Plate, single binnacle to ICON™ single, white	1
765076	Trim Plate, single binnacle to ICON™ single, off white	1
765077	Trim Plate, single binnacle to ICON™ single, white	1
765078	Trim Plate, single binnacle to ICON™ single, off white	1
765079	Trim Plate, dual binnacle to ICON™ dual, white	1
765080	Trim Plate, dual binnacle to ICON™ dual, off white	1

764943	6 Port Connector Hub - replacement (2-included in rigging kit)	1

Evinrude® ICON™ Electric Shift & Throttle Network System

With I-Command™ or ICON™ Gauges

Evinrude® ICON™ is designed to use I-Command™ or ICON™ gauges. The ICON™ Gateway provides the connection to the I-Command™ network. The Gateway includes additional functionality as the analog to digital converter for fuel tank level supporting input from one to four fuel tanks.

- Use the table below to identify recommended I-Command™ components.

Item	P/N	Description
1	767991	I-Command Gauge and Tee, 3.5 in.
2	764155	Terminator Kit (1 per boat)
3	767488	GPS Module and Tee
4	764181	Memory Module and Tee
5	764151	Tee Connector, Individual (Included with gauge)
6	764922	Gateway Module Kit (Includes 5, 6, 7 & 9)
7	764945	Bus Extension Cable, ICON 2 ft.
8	764943	Hub, ICON
9	764161	Bus Extension Cable, I-Command 6 ft.
10	N/A	Fuel Tank Sending Unit Inputs (4 Total)

ICON™ Gauges, Basic Series

- ICON™ Basic offers digital performance with an analog look.
- Basic functions in a high value, lower cost package
 - User Friendly - no push buttons to push, no setup required. Just straight accurate engine information.
 - It's plug and play. Connects directly into the existing Evinrude® NMEA 2000 network
 - Easy plug and play daisy chain connections between the tachometer and accessory gauges simplify wiring.
 - Works on Evinrude® E-TEC® 40-hp through 300-hp.
 - Supports up to 2 engines
 - Supports up to 2 fuel tanks
 - Accessory gauges provide dedicated display of water pressure, fuel level, battery volts, engine trim, engine temperature and oil tank level.
 - Engine fault warning lights — low oil, no oil, overheat, check engine
 - Fog resistant lens

Chrome Bezel, White Dial Face or Black Dial Face

ICON™ Gauges, Basic 3.5" Diameter

ICON™ Basic offers digital performance with an analog look.

Black P/N	White P/N	Description	Pack qty
766159	766182	3" (89mm), ICON Basic Tachometer with System Check Kit	1
766163	766186	3" (89mm), ICON Basic Speedometer Kit, 30 Mph	1
766164	766187	3" (89mm), ICON Basic Speedometer Kit, 50 Mph	1
766165	766188	3" (89mm), ICON Basic Speedometer, 80 Mph	1

ICON™ Gauges, Basic 3-n-1, 5" Diameter

ICON™ Multi-function 3-n-1 gauges offer high visibility and compact installation. Two gauges offer 7 major functions - single engine applications.

- Single engine application
- Single fuel tank support
- Tachometer support of RPM, Engine Temperature and Engine Trim
- Speedometer support of MPH, Fuel Level and Voltage
- Engine fault warning lights - low oil, no oil, overheat and check engine

Black P/N	White P/N	Description	Pack qty
766160	766183	5" (127mm), 3-in-1, ICON Basic Tachometer, Engine Temperature & Trim Kit	1
766166	766189	5" (127mm), 3-in-1, ICON Basic Speedometer Kit, 80 Mph with Fuel & Volt	1

ICON™ Gauges, Pro Series

- ICON™ PRO offers digital performance wrapped in an analog look with increased functionality in an LCD window.
- Specialized functions include GPS speed, fuel management, fuel economy, trip logs and many more.
 - It's plug and play. Connects directly into the existing Evinrude® NMEA 2000 network.
 - Works on Evinrude® E-TEC® 40-hp through 300-hp.
 - Supports up to 4 engines.
 - Supports up to 4 fuel tanks.
 - Accessory gauges provide dedicated display of water pressure, fuel level, battery volts, engine trim, engine temperature and oil tank level.
 - Multi-language support.
 - Engine fault warning lights.
 - Fog resistant lens.
 - Fault code support for Evinrude® E-TEC® G2.
 - Support for Evinrude® E-TEC® G2 mode control of DPS and i-Trim.
 - Does not support Evinrude® E-TEC® G2 foot throttle transfer.

Chrome Bezel, White Dial Face or Black Dial Face

ICON™ Gauges, Pro 3.5" Diameter

ICON™ PRO offers digital performance wrapped in an analog look with increased functionality in an LCD window.

Black P/N	White P/N	Description	Pack qty
768007	768008	3" (89mm), ICON Pro LCD 7000 RPM Tachometer Kit , Chrome	1
768053	768054	3" (89mm), ICON Pro LCD 50 MPH Speedometer Kit , Chrome	1
768055	768056	3" (89mm), ICON Pro LCD 80 MPH Speedometer Kit , Chrome	1

ICON™ Gauges, Accessory, 2" Diameter

ICON™ Accessory Gauges are the perfect complement to the ICON™ Pro, ICON™ Basic 3-n-1 and ICON™ Basic Main Gauges.

From adding a single fuel gauge to trying to simulate a fighter jet cockpit, Evinrude®ICON™ accessory gauges complete your console. These 2.0 in. (51mm) gauges are available with a black or white dial face.

Black P/N	White P/N	Description	Pack qty
766173	766196	ICON Basic Trim gauge kit, 2" (50.8mm) - includes 12" harness	1

Terminator Kit, I-Command™ and ICON™ Gauge

- Includes one female and one male terminator
- One terminator kit required per vessel

764155

P/N	Description	Pack qty
764155	Terminator Kit	1

Harness, Extension Network BUSS Cable,**I-Command™ and ICON™ Gauge.**

Used to extend the harness between the engine and the helm of the vessel, or as an extension to a NMEA 2000® device harness.
 • Required to extend gauge network cables from main station to second station application.

764163

P/N	Length	Description
765132	2'	Network bus Cable, 2'
764161	6'	Network bus Cable, 6'
764162	15'	Network bus Cable, 15'
764163	25'	Network bus Cable, 25'

GPS Module & Tee, I-Command™ and ICON™ Gauge

Required to view GPS speed over ground (SOG), longitude and latitude, time, and to support fuel management functions.
 • Includes one network tree

767488

P/N	Length	Description
767488	16"	GPS Antenna - SOG input (NMEA 200 compatible)

Memory Module Kit, I-Command™ and ICON™ Gauge

- Used to support fuel management functionality to the I-Command™ gauges. Works with up to 5 engine applications.
 - One per vessel for 1 to 3 engines.
 - Two per vessel for 4 to 5 engines
- Not Required with ICON™ Pro gauge.**

764181

P/N	Length	Description
764181	18"	Memory Module Kit

Speed/Fuel Economy Kit, I-Command™ and ICON™ Gauge

- Used to provide complete fuel management functionality to the I-Command™ gauges. Works with single, dual or triple applications.
- Includes two network tees, GPS and memory module.
- One kit per vessel.
- Not required with ICON™ Pro Gauge.

764315

Oil Tank Kits with Oil Level Sender

Oil tank kits come complete with mounting hardware, oil supply hose, primer assembly, and installed oil level sender.

- 1.8 gallon (10.2" L x 7.8" W x 9" H)
- 3 gallon (11.8" L x 8" W x 11" H)
- 5008619 Oil supply hose is 1/4", 15 ft. long
- 5008615 Oil supply hose is 1/4", 25 ft. long
- **Requires additional oil level converter**

5008619

P/N	Description	Pack qty
5008619	1.8 Gallon Tank with Sender (15' hose)	1
5008615	3 Gallon Tank Kit with Sender (25' hose)	1

Oil Level Converter Kits, I-Command™

Used to convert oil level sender signal to NMEA 2000® oil level signal. Available for 1.8 gallon, 3.0 gallon or 10 gallon oil tanks as well as for single, dual or triple engine applications.

- Oil level converter kits include the converter cable and network tees

765311

P/N	Description	Pack qty
765311	Oil Level Signal Converter Kit, single tank - includes 1 signal converter for 1 oil tank	1
765312	Oil Level Signal Converter Kit, twin tanks - includes 2 signal converters for 2 oil tanks	1
765313	Oil Level Signal Converter Kit, triple tanks - includes 3 signal converters for 3 oil tanks	1

Oil Tank Assembly - 10 Gallon

For twin and triple engine installations, direct injection or carbureted. Uses Evinrude®/Johnson® oil pick up assembly p/n 5008614 - one pickup assembly per engine. Installer will be required to drill a third hole for third engine oil pickup.

- 11.25" H x 30.75" L x 9" W
- Two holes drilled for twin pickups
- Oil level sender
- Molded fitting for fill and vent hose
- **Select additional oil level converter kit, I-Command™ oil level signal converter kit, single tank.**

776580

Warranty to be provided by Rabud™.

P/N	Description	Pack qty
776580	10 Gallon Tank Assembly	1

Oil Pick-Up Kits

May be added to the 3.0 gallon tank to operate two oil injection equipped engines from one oil tank.

- Select 3 gallon tank pick-up for installation to 10 gallon oil tank.
- One per engine required.

5008614

P/N	Description	Pack qty
5008614	3 Gallon Tank and 10 Gallon Tank, Oil Pick-up (25' hose)	1
5008618	1.8 Gallon Tank, Oil Pick-up	1

Oil Fill Kit, Remote

Mounts on deck for remote filling of oil injection tank.

- Includes tank cap and vented deck fitting

P/N	Description	Pack qty
176461	Remote Oil Fill Kit	1
766907	25' Oil Fill Hose to Connect Kit and Tank (not for gasoline) - 1½" I.D.	1

Hose - Fuel Line-EPA Guidelines

The EPA and CARB have mandated reduced fuel permeation from specific fuel system components. The legislation applies to all marine manufacturers and component suppliers of fuel hoses, primer bulbs and portable fuel tanks.

BRP achieved the EPA mandate and CARB compliance for low permeation fuel hoses in 2009. The EPA and CARB requirement for low permeation primer bulbs and portable fuel tanks went into effect on January 1, 2011 and BRP has now met that requirement.

As a user of Evinrude®/Johnson® Genuine Parts you can install and sell our components with complete confidence of compliance to the regulations and achieving the same level of durability, reliability and quality.

The fuel components listed are all EPA and CARB compliant.

Hose & Primer Bulb Assembly EPA Compliant

- 3/8" I.D. hose 10' long
- SAE J30R9 rated hose
- Meets USCG B1-15 spec

P/N	Description	Pack qty	Length	Dia.
5008585	No Quick Disconnects (POP) - EPA Compliant	1	10'	3/8"

Fuel Primer Bulb Assembly, EPA Compliant

Primer bulb assemblies for 5/16" or 3/8" hose.

- Meets EPA and Carb requirements for MY12
- Point of Purchase Packaged

5008605

Hose - Fuel Line Bulk, EPA Compliant

Bulk fuel line may be shipped in a non-continuous roll.

- Priced by the foot in multiples of dealer pack quantity
- SAE J30R9 rated hose (EPA compliant)
- Meets USCG B1-15 spec
- 772576 also meets USCG A-1 spec

772564

P/N	Description	Pack qty	Length	Dia.
772564	Fuel Line	25	25'	5/16" ID
772565	Fuel Line	50	50'	3/8" ID
772572	Multi-Purpose Hose	25	25'	1/4" ID
772576	USCG A-1 Hose	50	50'	3/8" ID

Filter - Fuel & Water Separator Kit - 25 Micron

Filters out dirt, lint and water. For all outboards and stern drives.

- Includes replacement spin-on filter
- Use 1/4" male pipe thread fittings (not included)

174176

E-RIG Rigging Configurator

The recommended rigging selection tool.

BRP is excited to announce Evinrude® E-RIG, Evinrude's newest outboard rigging component selection tool.

E-RIG is a user-friendly web-based tool designed to make selection of Evinrude® rigging components efficient and easy. You can match selection of rigging components specifically to your customers boat application and design.

E-RIG key features are:

- No setup, special software or extra cost required
- Simple point and click selection based on the engine model and horsepower
- Streamlines the building of a line-by-line customized rigging order
- Assembles Evinrude® rigging packages for single and multiple engines
- Pictures of all components
- Capability to print an order for review or save into a file for future use
- Options to display pricing at cost, suggested retail or no pricing at all
- Order placement with a P.O. is point and click direct through E-RIG
- Your pricing shown is the same as invoice

For one boat or 20, the new Evinrude® E-RIG tool will simplify the process of quickly selecting and ordering the right rigging parts the first time. E-RIG is available now on BOSSWeb. Go to BOSSWeb and navigate to the PARTS section. Just click on the [E-RIG Rigging Configurator](#) link to launch the application to get started on your first order.

If you have questions or need assistance with any of the information, please call your BRP Sales Representative.

Digital Gauges & Displays Rigging Selection

If using a manual process select rigging for Digital Gauges and Displays in the following steps:

1. Select shift and throttle controls in rigging kits or by individual assemblies.
2. Select ignition/TNT wire harness and key switch.
3. Select instrument style and type: I-Command™ digital, ICON™ Basic or ICON™ Pro.
4. Select Snap-In® HE or Snap-In® Classic control cables.
5. Select oil tanks.
6. Select fuel components.
7. Select propeller.

I-Command™ Digital Gauge and Network Components

I-Command Digital Network with Mechanical Remote Control
Remote Control, Gauges, and Harnesses
Single Engine

I-Command Digital Network Components

Item	Description	Item	Description
1	Remote Control	4	Terminators
2	<i>I-Command</i> Gauges	5	T-Connectors
3	Ignition and Trim/Tilt Harness*	6	Power Supply Cable
		7	EMM Cable

*Select Ignition and Trim/Tilt Harness and multi-engine adapters as needed.

Use *I-Command* Digital rigging kits for the installation of the *I-Command* Digital network.

For one or two engine installations, select one *I-Command* Digital rigging kit per vessel.

Ignition and Trim/Trim harnesses are available in multiple lengths. These harnesses are not included in *I-Command* Digital rigging kits.

Choose Ignition and Trim/Tilt Harnesses for one, two, or three engine installations.
Select and use multi-engine adaptor harnesses for two and three engine installations.

Additional *I-Command* Digital network components are identified in the *I-Command* Digital network section. Order extra *I-Command* gauges as needed.

Choose oil tanks, control cables, fuel system components, steering components, and propellers to complete boat rigging.

For multi-station rigging, use the ICON System.

ICON™ Gauge and Network Components

ICON™ Gauge Network Components

Item	Description	Item	Description
1	Tachometer	7	Trim Sender
2	Speedometer	8	Network power supply
3	Accessory gauge	9	T-Connectors
4	Remote control	10	EMM Cable
5	Switched battery power	11	Fuel level sender
6	Ground	12	MWS Harness

ICON™ gauges are available in different styles, diameters and black or white dial faces.

- ICON™ PRO gauges display over 47 types of engine and vessel information, including fuel management.* ICON™ PRO gauges come in standard 3.5 inch (89 mm) and 5 inch (127 mm) diameter
- ICON™ 3n1 gauges offer 3 gauges in one giant size, 5 inch (127 mm) diameter gauge

– Select a Tachometer (RPM, engine temperature, volts, SystemCheck® lights) and Speedometer (Speed, engine trim, fuel level)

- ICON™ Basic gauges are available as Speedometer and Tachometer with SystemCheck® lights
- Select accessory 2 inch (51mm) gauge to compliment ICON™ PRO, ICON™ 3N1 and ICON™ Basic main gauges

Accessory sensors are required to enable certain functions.

- Select the GPS sensor for accurate speed and fuel economy display
- Select water pressure sensors to display engine water pressure
- Select accessory oil level converters to add display of oil tank level
- Additional ICON™ and I-Command™ network components are listed in the ICON™ gauge section

Choose oil tanks, control cables, fuel system components, steering components and propellers to complete boat rigging.

For Multi-station rigging use the ICON™ EST system.

Rigging Kits, I-Command™ Single Engine

I-Command™ Digital rigging kits provide the ultimate in rigging convenience. Choose your rigging kit and the appropriate Ignition/TNT harness and you've got everything you need to install a basic I-Command™ Digital system. From there you can add more gauges or optional accessories to activate advanced features of the I-Command™ Digital gauges. These new kits feature the easy to assemble and install DeviceNet™ Micro-C™ connector. With these rigging kits it makes I-Command™ Digital component selection easy.

KIT P/N 764309 Shown

Rigging Kit, I-Command™ Single Engine 764309

I-Command™ Digital Single Binnacle (for single binnacles WITH KEY).

Rigging kit includes:

- 5006186 - Single lever binnacle control with key
- 764163 - Network buss cable, 25'
- 5008617 - 1.8 Gallon oil tank
- 766026 - EMM Harness kit, 15'
- 764155 - Terminator kit
- 764157 - Power supply kit (single engine)
- 767991 - 3.5" Multi-function I-Command™ digital gauge
- 768451 - Fuel level converter kit, single fuel tank
- **Requires additional Ignition/TNT Harness (order to length)**

5006186

Refer to I-Command™ Sample Network Diagram for recommended layout and connections.

P/N	Description	Pack qty
764309	I-Command Digital Single Binnacle Rigging Kit (for single lever binnacle control with key)	1
5006186	Single Level Binnacle Control with Key Switch	1

Rigging Kit, I-Command™ Single Engine 764310

I-Command™ Digital Single Binnacle (for single binnacles WITHOUT KEY).

Rigging kit includes:

- 5006182 - Single lever binnacle control without key
- 764163 - Network buss cable, 25'
- 176408 - Single engine key/stop switch
- 5008617 - 1.8 Gallon oil tank
- 766026 - EMM Harness kit, 15'
- 764155 - Terminator kit
- 764157 - Power supply kit (single engine)
- 767991 - 3.5" Multi-function I-Command™ digital gauge
- 768451 - Fuel level converter kit, single fuel tank
- **Requires additional Ignition/TNT Harness (order to length)**

5006182

Refer to I-Command™ Sample Network Diagram for recommended layout and connections.

P/N	Description	Pack qty
764310	I-Command™ Digital Single Binnacle Rigging Kit (for single lever binnacle control without key)	1
5006182	Single Level Binnacle Control without Key Switch	1

Rigging Kit, I-Command™ Single Engine 764311

I-Command™ Digital Surface Mount (for surface side mount **WITH KEY**).

Rigging kit includes:

- 5006180 - Surface side mount control **with key**
- 764163 - Network buss cable, 25'
- 5008617 - 1.8 Gallon oil tank
- 766026 - EMM Harness kit, 15'
- 764155 - Terminator kit
- 764157 - Power supply kit (single engine)
- 767991 - 3.5" Multi-function I-Command™ digital gauge
- 768452 - Fuel level converter kit, single fuel tank
- **Requires additional Ignition/TNT Harness (order to length)**

5006180

Refer to I-Command™ Sample Network Diagram for recommended layout and connections.

P/N	Description	Pack qty
764311	I-Command™ Digital Surface Side Mount Rigging Kit, with key	1
5006180	Surface mount control with ignition, trim switch, switch	1

Rigging Kit, I-Command™ Single Engine 764312

I-Command™ Digital Concealed Side Mount (for concealed side mount).

Rigging kit includes:

- 5006561 - Concealed side mount control
- 764163 - Network buss cable, 25'
- 176408 - Single engine key/stop switch
- 5008617 - 1.8 Gallon oil tank
- 766026 - EMM Harness kit, 15'
- 764155 - Terminator kit
- 764157 - Power supply kit (single engine)
- 767991 - 3.5" Multi-function I-Command™ digital gauge
- 768452 - Fuel level converter kit, single fuel tank
- **Requires additional Ignition/TNT Harness (order to length)**

5006561

Refer to I-Command™ Sample Network Diagram for recommended layout and connections.

Wire Harness, Ignition/TNT I-Command™ - Single Engine

- Ignition/TNT - Single Engine.** Required for vessels equipped with I-Command™ in order to view engine trim.
- Runs directly from the helm to the outboard
 - One harness required per outboard
 - Includes accessory power leads
 - Includes built in resistor to support trim display 115-300 HP

763543

P/N	Length	Description
763543	15'	Ignition/TNT Harness 15'

763546	28'	Ignition/TNT Harness 28'

Wire Harness, Ignition/TNT I-Command™ - Multi Engine

- Ignition/TNT - Multi Engine.** Required for multi-engine vessels equipped with I-Command™ in order to view engine trim.
- Runs directly from the helm to the transom
 - Includes appropriate number of accessory power leads
 - One harness required per vessel
 - Requires one 6' or 10' multi-engine adapter harness per outboard to complete connection from transom to outboard

763548

P/N	Length	Description
763548	20'	Ignition/TNT Harness, 2 Engines 20'
763549	25'	Ignition/TNT Harness, 2 Engines 25'

Wire Harness, Multi-Engine Adapter I-Command™

- Required for use with dual or triple engine installations.
- Installs at the outboard ends of the harness only
 - Available in 6 or 10 foot lengths
 - Order one per engine
 - Includes built in resistor to support trim display 115-300 HP

763552

P/N	Length	Description
763552	6'	Multi-Engine Adapter Harness 6'

ICON™ Gauges, Basic Series

- ICON™ Basic offers digital performance with an analog look.
- Basic functions in a high value, lower cost package
 - User Friendly - no push buttons to push, no setup required. Just straight accurate engine information.
 - It's plug and play. Connects directly into the existing Evinrude® NMEA 2000 network
 - Easy plug and play daisy chain connections between the tachometer and accessory gauges simplify wiring.
 - Works on Evinrude® E-TEC® 40-hp through 300-hp.
 - Supports up to 2 engines
 - Supports up to 2 fuel tanks
 - Accessory gauges provide dedicated display of water pressure, fuel level, battery volts, engine trim, engine temperature and oil tank level.
 - Engine fault warning lights — low oil, no oil, overheat, check engine
 - Fog resistant lens

Chrome Bezel, White Dial Face or Black Dial Face

ICON™ Gauges, Basic 3.5" Diameter

ICON™ Basic offers digital performance with an analog look.

Black P/N	White P/N	Description	Pack qty
766159	766182	3" (89mm), ICON Basic Tachometer with System Check Kit	1
766163	766186	3" (89mm), ICON Basic Speedometer Kit, 30 Mph	1
766164	766187	3" (89mm), ICON Basic Speedometer Kit, 50 Mph	1
766165	766188	3" (89mm), ICON Basic Speedometer, 80 Mph	1

ICON™ Gauges, Basic 3-n-1, 5" Diameter

ICON™ Multi-function 3-n-1 gauges offer high visibility and compact installation. Two gauges offer 7 major functions - single engine applications.

- Single engine application
- Single fuel tank support
- Tachometer support of RPM, Engine Temperature and Engine Trim
- Speedometer support of MPH, Fuel Level and Voltage
- Engine fault warning lights - low oil, no oil, overheat and check engine

Black P/N	White P/N	Description	Pack qty
766160	766183	5" (127mm), 3-in-1, ICON Basic Tachometer, Engine Temperature & Trim Kit	1
766166	766189	5" (127mm), 3-in-1, ICON Basic Speedometer Kit, 80 Mph with Fuel & Volt	1

ICON™ Gauges, Pro Series

ICON™ PRO offers digital performance wrapped in an analog look with increased functionality in an LCD window.

- Specialized functions include GPS speed, fuel management, fuel economy, trip logs and many more.
- It's plug and play. Connects directly into the existing Evinrude® NMEA 2000 network.
- Works on Evinrude® E-TEC® 40-hp through 300-hp.
- Supports up to 4 engines.
- Supports up to 4 fuel tanks.
- Accessory gauges provide dedicated display of water pressure, fuel level, battery volts, engine trim, engine temperature and oil tank level.
- Multi-language support.
- Engine fault warning lights.
- Fog resistant lens.
- Fault code support for Evinrude® E-TEC® G2.
- Support for Evinrude® E-TEC® G2 mode control of DPS and i-Trim.
- Does not support Evinrude® E-TEC® G2 foot throttle transfer.

Chrome Bezel, White Dial Face or Black Dial Face

ICON™ Gauges, Pro 3.5" Diameter

ICON™ PRO offers digital performance wrapped in an analog look with increased functionality in an LCD window.

Black P/N	White P/N	Description	Pack qty
768007	768008	3" (89mm), ICON Pro LCD 7000 RPM Tachometer Kit , Chrome	1
768053	768054	3" (89mm), ICON Pro LCD 50 MPH Speedometer Kit , Chrome	1
768055	768056	3" (89mm), ICON Pro LCD 80 MPH Speedometer Kit , Chrome	1

ICON™ Gauges, Accessory, 2" Diameter

ICON™ Accessory Gauges are the perfect complement to the ICON™ Pro, ICON™ Basic 3-n-1 and ICON™ Basic Main Gauges.

From adding a single fuel gauge to trying to simulate a fighter jet cockpit, Evinrude®ICON™ accessory gauges complete your console. These 2.0 in. (51mm) gauges are available with a black or white dial face.

Black P/N	White P/N	Description	Pack qty
766173	766196	ICON Basic Trim gauge kit, 2" (50.8mm) - includes 12" harness	1

Gauges - I-Command™ and ICON™ Gauge Accessory Rims

Add a custom touch to the Evinrude® instruments with these great looking gauge rims. The color selection is sure to make your dashboard stand out and be noticed.

- Powder coated for durability and superior high gloss finish
- Available in 7 colors
- 3 3/8 and 2 1/8 gauge hole sizes
- Can also be used with analog gauges

Connectors - Trim "Y"

To provide electrical connections to "tap into" the trim harness with a second trim switch (i.e. bow mounted trim).

176588

P/N	Description	Pack qty
176534	"Y" Connector Only - 6"	1
176588	"Y" Connector with 13' Cable no Switch	1

Power Supply Kit, I-Command™ and ICON™ Gauge

For Single & Multi-Engines. Provides 12 volt switched power to the I-Command™ network.

- One power supply kit required per vessel
- Select appropriate single or multi-engine power supply kit
- *Not used with ICON™ controls.*

764159

P/N	Description	Pack qty
764157	Power Supply Kit - Single Engine (not recommended for multiple engine applications)	1
764159	Power Supply Kit - Multi-Engine	1

Terminator Kit, I-Command™ and ICON™ Gauge

- Includes one female and one male terminator
- One terminator kit required per vessel

764155

P/N	Description	Pack qty
764155	Terminator Kit	1

EMM Harness, I-Command™ and ICON™ Gauges

Includes a harness and a tee to link the Evinrude® E-TEC® EMM to the NMEA® 2000 network.

- One EMM harness required per engine on the network.
- Use on 135-300 HP
- *Not used with ICON™ controls.*

766026

P/N	Length	Description
766026	15'	EMM Harness Kit, 15'

Fuel Level Converter Kit, I-Command™ and ICON™ Gauge

Converts analog fuel level sender signal to a NMEA 2000® fuel level signal.

- Select for single or multiple tank configuration.
- Unconfigured converter can be programmed to the desired tank instance and fluid type.
- All fuel level converter kits include one network tee.
- *Not used with ICON™ controls. or gauges.*

Fluid Level Converter Kit - Unconfigured and ICON™ Gauge

Converts analog fluid level sender signal to NMEA 2000® fluid level signal. Can be programmed to the desired tank location and fluid type. System is capable of maximum 3 fluid types per configuration.

- Fluid tank must have a standard 33–240 OHM sending unit installed.
- Available fluid configurations are: fuel, oil, freshwater, wastewater, blackwater and livewell.

764166

P/N	Description	Application
768452	Fuel Level Converter Kit - I0	Fuel Level Converter Kit - I0

Water Pressure Sensor Kits, I-Command™

Required to view water pressure on I-Command™, ICON™ and ICON™ Touch gauges.

- I-Command™ water pressure sensor works with all Evinrude® E-TEC® outboards supporting I-Command™ and ICON™ gauges and ICON™ Touch displays.
- Includes network tees as required
- .
- Order quantity one per engine.

5008640 & 765038

Application Chart				
P/N	HP Range	Model Year	Pressure Range PSI	Sensor Mounting Location
5008300	115-200HP	2008 thru	0-30	Engine

765038	NMEA Network Based Water Pressure Sensor Kit (0-100 PSI pressure range) - 40-90 HP 2008 thru	1

Harness, Extension Network BUSS Cable,

I-Command™ and ICON™ Gauge.

Used to extend the harness between the engine and the helm of the vessel, or as an extension to a NMEA 2000® device harness.

- Required to extend gauge network cables from main station to second station application.

764163

P/N	Length	Description
765132	2'	Network bus Cable, 2'
764161	6'	Network bus Cable, 6'
764162	15'	Network bus Cable, 15'
764163	25'	Network bus Cable, 25'

GPS Module & Tee, I-Command™ and ICON™ Gauge

Required to view GPS speed over ground (SOG), longitude and latitude, time, and to support fuel management functions.

- Includes one network tree

767488

P/N	Length	Description
767488	16"	GPS Antenna - SOG input (NMEA 200 compatible)

Memory Module Kit, I-Command™ and ICON™ Gauge

- Used to support fuel management functionality to the I-Command™ gauges. Works with up to 5 engine applications.
- One per vessel for 1 to 3 engines.
- Two per vessel for 4 to 5 engines

Not Required with ICON™ Pro gauge.

764181

P/N	Length	Description
764181	18"	Memory Module Kit

Speed/Fuel Economy Kit, I-Command™ and ICON™ Gauge

- Used to provide complete fuel management functionality to the I-Command™ gauges. Works with single, dual or triple applications.
- Includes two network tees, GPS and memory module.
- One kit per vessel.
- Not required with ICON™ Pro Gauge.

764315

P/N	Description	Pack qty
764315	Speed/Fuel Economy Kit	1

Tri-Ducer Kit, Paddle Wheel - Transom Mount, I-Command™ & ICON™ Gauge

Measures SOW (speed over water), depth and, water temperature.

- Includes a 12 foot lead and one network tee.

764671

P/N	Description	Pack qty
764671	Paddle Wheel Tri-Ducer, Transom Mount, Speed, Depth, Temperature (NMEA 200 compatible)	1
764672	Transducer, Transom Mount - Depth/Temp Only (NMEA 200 compatible)	1

Tri-Ducer Kit, Paddle Wheel - Thru Hull, I-Command™ & ICON™ Gauge

Plastic thru-hull tri-ducer measures SOW (speed over water), depth and, water temperature.

- Includes a 12 foot lead and one network tee.

764673

P/N	Description	Pack qty
764673	Paddle Wheel Tri-Ducer, Thru Hull, Plastic, Speed, Depth, Temperature (NMEA 200 compatible)	1

Speed Kit, Paddle Wheel I-Command™ & ICON™ Gauge

Measures speed over water only.

765150

P/N	Description	Pack qty
765150	Transducer, Speed Only, Transom Mount	1

Temperature Kit, I-Command™ & ICON™ Gauge

Measures fluid, air or mechanical temperatures.

- Includes a 12' lead and one network tee.

764183

P/N	Description	Pack qty
764183	Temperature Kit	1

Tees, Network - Single I-Command™ & ICON™ Gauge

Used for adding NMEA 2000® devices to the network.

- Single network tees are included with all kits
- Order individual tees for adding devices not sold in kits or for service replacement of an existing network tee

Cables - Control (Shift & Throttle)**EVINRUDE®/JOHNSON® SHIFT AND THROTTLE CABLES**

Evinrude Johnson Genuine Parts now offers two types of control cables to deliver superior performance in almost any rigging situation. They are called Snap-In standard and Snap-In HE. Each style has enhanced designs that deliver high performance and efficiency in nearly every installation. Snap-In standard and Snap-In HE cables are dedicated to the exact connection points for Evinrude and Johnson outboards. Each style carries a 3 year limited warranty.

Which control cable is the right choice for my boat? – Snap-In or Snap-In HE?

SNAP-IN® STANDARD CABLES FOR BETTER PERFORMANCE!**Lubricated Liner – Smoother operation, longer life**

Because of our lubricated liner, we can accept a smaller tolerance between the core wire and liner. This lower tolerance keeps the cable from moving sideways in the liner resulting in less cable backlash.

Stainless Steel Core Wire – Salt water corrosion resistant

Most of the imitation cables do not use stainless steel. The area between the core wire and liner is a perfect environment for corrosion. This concern is addressed by using high quality stainless steel core wires.

Hard Drawn Steel Lay Wires

16 lay wires support the cable. Many imitation cables use less than half as many lay wires. These lay wires support the core wire in a bend. With this much support in a cable, you are guaranteed a smooth radius without “kinks.”

NO ADAPTER KITS REQUIRED

**COMPETITOR'S CABLE**

Choose the standard Snap-In cable for short cable runs up to 22 ft. that have simple routings with the fewest twists and bends. The standard Snap-In cable delivers better performance than competitors imitation control cables.

SNAP-IN® HIGH-EFFICIENCY CABLES FOR BEST PERFORMANCE!

Choose the Snap-In HE, high efficiency cable for long cable runs and complex routing paths through the boat. Snap-In HE cables have lower friction and reduced lost motion which translates to smoother shifting and more responsive throttle operation in the toughest rigging conditions. Snap-In HE delivers superior performance for increased customer satisfaction.

Selection of Cable Length**Selection of Cable Length**

Measure from the inside of the boat. Point A, (desired position of control box) to Point B. Be sure to include any vertical distance the cable must travel to reach control mounting area. Measure from Point B to center line of motor location C. As a guideline, it is recommended that the path with the least number of bends be selected.

Outboard

Add 1 m (40") to this measurement. Choose this cable length, or the next longer size, from the chart. **Two cables are required for single motor installations**

P/N	Description	Pack qty
765311	Oil Level Signal Converter Kit, single tank - includes 1 signal converter for 1 oil tank	1
765312	Oil Level Signal Converter Kit, twin tanks - includes 2 signal converters for 2 oil tanks	1
765313	Oil Level Signal Converter Kit, triple tanks - includes 3 signal converters for 3 oil tanks	1

Oil Tank Assembly - 10 Gallon

For twin and triple engine installations, direct injection or carbureted. Uses Evinrude®/Johnson® oil pick up assembly p/n 5008614 - one pickup assembly per engine. Installer will be required to drill a third hole for third engine oil pickup.

- 11.25" H x 30.75" L x 9" W
- Two holes drilled for twin pickups
- Oil level sender
- Molded fitting for fill and vent hose
- Select additional oil level converter kit, I-Command™ oil level signal converter kit, single tank.

776580

Warranty to be provided by Rabud™.

P/N	Description	Pack qty
776580	10 Gallon Tank Assembly	1

Oil Pick-Up Kits

May be added to the 3.0 gallon tank to operate two oil injection equipped engines from one oil tank.

- Select 3 gallon tank pick-up for installation to 10 gallon oil tank.
- One per engine required.

5008614

P/N	Description	Pack qty
5008614	3 Gallon Tank and 10 Gallon Tank, Oil Pick-up (25' hose)	1
5008618	1.8 Gallon Tank, Oil Pick-up	1

Oil Fill Kit, Remote

Mounts on deck for remote filling of oil injection tank.

- Includes tank cap and vented deck fitting

176461

P/N	Description	Pack qty
176461	Remote Oil Fill Kit	1
766907	25' Oil Fill Hose to Connect Kit and Tank (not for gasoline) - 1½" I.D.	1

Hose - Fuel Line-EPA Guidelines

The EPA and CARB have mandated reduced fuel permeation from specific fuel system components. The legislation applies to all marine manufacturers and component suppliers of fuel hoses, primer bulbs and portable fuel tanks.

BRP achieved the EPA mandate and CARB compliance for low permeation fuel hoses in 2009. The EPA and CARB requirement for low permeation primer bulbs and portable fuel tanks went into effect on January 1, 2011 and BRP has now met that requirement.

As a user of Evinrude®/Johnson® Genuine Parts you can install and sell our components with complete confidence of compliance to the regulations and achieving the same level of durability, reliability and quality.

The fuel components listed are all EPA and CARB compliant.

Hose & Primer Bulb Assembly EPA Compliant

- 3/8" I.D. hose 10' long
- SAE J30R9 rated hose
- Meets USCG B1-15 spec

P/N	Description	Pack qty	Length	Dia.
5008585	No Quick Disconnects (POP) - EPA Compliant	1	10'	3/8"

Fuel Primer Bulb Assembly, EPA Compliant

Primer bulb assemblies for 5/16" or 3/8" hose.

- Meets EPA and Carb requirements for MY12
- Point of Purchase Packaged

5008605

Hose - Fuel Line Bulk, EPA Compliant

Bulk fuel line may be shipped in a non-continuous roll.

- Priced by the foot in multiples of dealer pack quantity
- SAE J30R9 rated hose (EPA compliant)
- Meets USCG B1-15 spec
- 772576 also meets USCG A-1 spec

772564

E-RIG Rigging Configurator

The recommended rigging selection tool.

BRP is excited to announce Evinrude® E-RIG, Evinrude's newest outboard rigging component selection tool.

E-RIG is a user-friendly web-based tool designed to make selection of Evinrude® rigging components efficient and easy. You can match selection of rigging components specifically to your customers boat application and design.

E-RIG key features are:

- No setup, special software or extra cost required
- Simple point and click selection based on the engine model and horsepower
- Streamlines the building of a line-by-line customized rigging order
- Assembles Evinrude® rigging packages for single and multiple engines
- Pictures of all components
- Capability to print an order for review or save into a file for future use
- Options to display pricing at cost, suggested retail or no pricing at all
- Order placement with a P.O. is point and click direct through E-RIG
- Your pricing shown is the same as invoice

For one boat or 20, the new Evinrude® E-RIG tool will simplify the process of quickly selecting and ordering the right rigging parts the first time. E-RIG is available now on BOSSWeb. Go to BOSSWeb and navigate to the PARTS section. Just click on the [E-RIG Rigging Configurator](#) link to launch the application to get started on your first order.

If you have questions or need assistance with any of the information, please call your BRP Sales Representative.

SystemCheck® Gauges & MWS Rigging Selection

If using a manual process select rigging for Digital Gauges and Displays in the following steps:

1. Select shift and throttle controls in rigging kits or by individual assemblies.
2. Select MWS wire harness and key switch.
3. Select instrument style and type: Tech™ Series, Zephyr™ Series, Concept™ Series or Retro Series.
4. Select Snap-In® HE or Snap-In® Classic control cables.
5. Select oil tanks.
6. Select fuel components.
7. Select propeller.

SystemCheck® Network

With mechanical remote control.

SystemCheck Gauges with Mechanical Remote Control Remote Control, Gauges, and Harness Single Engine

SystemCheck Network

Item	Description	Item	Description
1	Remote Control	4	Warning Horn
2	3.5" SystemCheck Tachometer	5	2" Gauge
3	MWS Harness	6	3.5" Gauge

Use *SystemCheck* rigging kits for the installation of *SystemCheck* components. Rigging kits include most components used for *SystemCheck* installations.

For one or two engine installations, select one *SystemCheck* rigging kit per vessel.

SystemCheck gauges and additional components are listed in the *SystemCheck* section.

Choose oil tanks, control cables, fuel system components, steering components, and propellers to complete boat rigging.

For multi-station rigging, use the *ICON* System.

Control - Concealed Side Mount (CSM)**Standard Features**

- BRP styling and design
- Port or Starboard mounting
- Improved throttle and shift control
- Easy toggle trim switch
- Simplified cable installation
- Adjustable throttle friction
- Push-Button neutral warm up
- "Start-in-gear prevention"
- NOT for use with Stern Drive applications

Control - Single Lever Binnacle without Key Switch

Standard Features

- BRP styling and design
- 1996 and Newer engines
- Improved throttle and shift control
- Easy toggle trim switch
- Simplified cable installation
- Adjustable throttle friction
- Push-button neutral warm up
- Start-in-gear prevention
- NOT for use with Stern Drive applications

Wiring Harness, SystemCheck® MWS

P/N	Description	Pack qty
176339	MWS Wiring Harness - 12'	1
176340	MWS Wiring Harness - 15'	1
176341	MWS Wiring Harness - 20'	1
176342	MWS Wiring Harness - 28'	1

Extensions Between Harness & Engine - 1996 & Newer

P/N	Description	Pack qty
176333	Extension between MWS harness and engine - 5'	1
176334	Extension between MWS harness and engine - 10'	1
176335	Extension between MWS harness and engine - 20'	1

Extensions Between Harness and Dash - 1996 & Newer

P/N	Description	Pack qty
176715	Key switch extension - 6 wire - 3'	1
176716	Trim Switch extension - 3 wire - 3'	1
176717	System Check MWS extension - 8 wire - 3'	1
176718	Horn extension - 2 wire - 3'	1

Note: All extensions are 3' long.

Wiring Harness, 1973-1995 Models

Harness connects engine functions to remote control or key switch kit. Order trim harness separately.

Adapts the round red engine connector to SystemCheck® ignition switch.

- 18 feet long
- Includes warning horn and trim switch adapter.

P/N	Description	Pack qty
768411	Wiring Kit for 1973-1995 Models - 20'	1

Key Switch Kit - Single Engine

Connect to main electrical cable when using a control that is not pre-wired. Includes horn and emergency stop switch.
• Requires one SystemCheck® MWS wiring harness

176408

P/N	Description	Pack qty
176408	Key Switch Kit	1
174653	Bezel Kit (bezel and 2 screws)	1

Key Switch Kit - Dual Engine

Connect to main electrical cable when using a control that is not pre-wired. Includes two horns and emergency stop switch.
• Requires two SystemCheck® MWS wiring harnesses

176410

P/N	Description	Pack qty
176410	Dual Key Switch Kit	1

Foot Throttle Control - Hot Foot™

Marine Foot Throttle makes driving boats fun and safe.

- Mounts directly to floor for outboard and inboard engine applications
- Adaptable to all high performance boats
- Cast aluminum reduces weight and resists corrosion
- Stainless steel hardware with Teflon® and nylon bearing surfaces for trouble free operation
- Stainless steel spring returns engine to idle position when released
- Toe clip for additional safety in extreme operating conditions
- Provisions for additional return spring if required
- Uses standard control cables for easy hook-up
- Adjustable Slide Mount allows boaters to adjust the Hot Foot™ for maximum comfort and adjust to different heights for drivers (HFM-1)

Cables - Control (Shift & Throttle)**EVINRUDE®/JOHNSON® SHIFT AND THROTTLE CABLES**

Evinrude Johnson Genuine Parts now offers two types of control cables to deliver superior performance in almost any rigging situation. They are called Snap-In standard and Snap-In HE. Each style has enhanced designs that deliver high performance and efficiency in nearly every installation. Snap-In standard and Snap-In HE cables are dedicated to the exact connection points for Evinrude and Johnson outboards. Each style carries a 3 year limited warranty.

Which control cable is the right choice for my boat? – Snap-In or Snap-In HE?

SNAP-IN® STANDARD CABLES FOR BETTER PERFORMANCE!**Lubricated Liner – Smoother operation, longer life**

Because of our lubricated liner, we can accept a smaller tolerance between the core wire and liner. This lower tolerance keeps the cable from moving sideways in the liner resulting in less cable backlash.

Stainless Steel Core Wire – Salt water corrosion resistant

Most of the imitation cables do not use stainless steel. The area between the core wire and liner is a perfect environment for corrosion. This concern is addressed by using high quality stainless steel core wires.

Hard Drawn Steel Lay Wires

16 lay wires support the cable. Many imitation cables use less than half as many lay wires. These lay wires support the core wire in a bend. With this much support in a cable, you are guaranteed a smooth radius without “kinks.”

NO ADAPTER KITS REQUIRED

EVINRUDE/JOHNSON SNAP-IN

COMPETITOR'S CABLE

ALL EVINRUDE/JOHNSON SHIFT AND THROTTLE CABLES FEATURE AN INDUSTRY BEST

3-YEAR LIMITED WARRANTY

Choose the standard Snap-In cable for short cable runs up to 22 ft. that have simple routings with the fewest twists and bends. The standard Snap-In cable delivers better performance than competitors imitation control cables.

SNAP-IN® HIGH-EFFICIENCY CABLES FOR BEST PERFORMANCE!

Choose the Snap-In HE, high efficiency cable for long cable runs and complex routing paths through the boat. Snap-In HE cables have lower friction and reduced lost motion which translates to smoother shifting and more responsive throttle operation in the toughest rigging conditions. Snap-In HE delivers superior performance for increased customer satisfaction.

* These cables are designed specifically to fit Evinrude/Johnson® remote controls on the input end and standard SAE fittings on the output end for portable 4-strokes.

** Limited availability

Selection of Cable Length

Measure from the inside of the boat, Point A, (desired position of control box) to Point B. Be sure to include any vertical distance the cable must travel to reach control mounting area. Measure from Point B to center line of motor location C. As a guideline, it is recommended that the path with the least number of bends be selected.

Outboard

Add 1 m (40") to this measurement. Choose this cable length, or the next longer size, from the chart. **Two cables are required for single motor installations**

Gauges - Tech™ Series Instruments

Black dial face, white letters, orange pointer, full-size bezel, fiber optic back-lit with red tint

These instruments are built tough, to withstand the rigors of life on the water. Solid-state electronics temperature-resistant plastics and scratch-resistant glass lenses are engineered into every instrument to ensure a long life of accurate reading. Plus, they feature perimeter lighting for night reading.

Oil Tank Kits without Oil Level Sender

Oil tank kits come complete with mounting hardware, oil supply hose and primer assembly.

- 1.8 gallon (10.2" L x 7.8" W x 9" H)
- 3 gallon (11.8" L x 8" W x 11" H)
- 5008617 Oil supply hose is 1/4", 15 ft. long
- 5008613 Oil supply hose is 1/4", 25 ft. long

5008617

P/N	Description	Pack qty
5008617	1.8 Gallon Tank without Oil Level Sender (15' hose)	1
5008613	3.0 Gallon Tank Kit without Oil Level Sender (25' hose)	1

Oil Tank Assembly - 10 Gallon

For twin and triple engine installations, direct injection or carbureted. Uses Evinrude®/Johnson® oil pick up assembly p/n 5008614 - one pickup assembly per engine. Installer will be required to drill a third hole for third engine oil pickup.

- 11.25" H x 30.75" L x 9" W
- Two holes drilled for twin pickups
- Oil level sender
- Molded fitting for fill and vent hose
- Select additional oil level converter kit, I-Command™ oil level signal converter kit, single tank.

776580

Warranty to be provided by Rabud™.

P/N	Description	Pack qty
776580	10 Gallon Tank Assembly	1

Oil Pick-Up Kits

May be added to the 3.0 gallon tank to operate two oil injection equipped engines from one oil tank.

- Select 3 gallon tank pick-up for installation to 10 gallon oil tank.
- One per engine required.

5008614

P/N	Description	Pack qty
5008614	3 Gallon Tank and 10 Gallon Tank, Oil Pick-up (25' hose)	1
5008618	1.8 Gallon Tank, Oil Pick-up	1

Oil Fill Kit, Remote

Mounts on deck for remote filling of oil injection tank.

- Includes tank cap and vented deck fitting

176461

P/N	Description	Pack qty
176461	Remote Oil Fill Kit	1
766907	25' Oil Fill Hose to Connect Kit and Tank (not for gasoline) - 1 1/2" I.D.	1

Hose - Fuel Line-EPA Guidelines

The EPA and CARB have mandated reduced fuel permeation from specific fuel system components. The legislation applies to all marine manufacturers and component suppliers of fuel hoses, primer bulbs and portable fuel tanks. BRP achieved the EPA mandate and CARB compliance for low permeation fuel hoses in 2009. The EPA and CARB requirement for low permeation primer bulbs and portable fuel tanks went into effect on January 1, 2011 and BRP has now met that requirement. As a user of Evinrude®/Johnson® Genuine Parts you can install and sell our components with complete confidence of compliance to the regulations and achieving the same level of durability, reliability and quality. The fuel components listed are all EPA and CARB compliant.

Hose & Primer Bulb Assembly EPA Compliant

- 3/8" I.D. hose 10' long
- SAE J30R9 rated hose
- Meets USCG B1-15 spec

P/N	Description	Pack qty	Length	Dia.
5008585	No Quick Disconnects (POP) - EPA Compliant	1	10'	3/8"

Fuel Primer Bulb Assembly, EPA Compliant

- Primer bulb assemblies for 5/16" or 3/8" hose.
- Meets EPA and Carb requirements for MY12
 - Point of Purchase Packaged

P/N	Description	Pack qty
5008605	Primer Bulb Assembly for 5/16" I.D. hose (POP) - EPA Compliant	1
5008586	Primer Bulb Assembly for 3/8" I.D. hose (POP) - EPA Compliant	1

Hose - Fuel Line Bulk, EPA Compliant

- Bulk fuel line may be shipped in a non-continuous roll.
- Priced by the foot in multiples of dealer pack quantity
 - SAE J30R9 rated hose (EPA compliant)
 - Meets USCG B1-15 spec
 - 772576 also meets USCG A-1 spec

P/N	Description	Pack qty	Length	Dia.
772564	Fuel Line	25	25'	5/16" ID

E-RIG Rigging Configurator

The recommended rigging selection tool.

BRP is excited to announce Evinrude® E-RIG, Evinrude's newest outboard rigging component selection tool.

E-RIG is a user-friendly web-based tool designed to make selection of Evinrude® rigging components efficient and easy. You can match selection of rigging components specifically to your customers boat application and design.

E-RIG key features are:

- No setup, special software or extra cost required
- Simple point and click selection based on the engine model and horsepower
- Streamlines the building of a line-by-line customized rigging order
- Assembles Evinrude® rigging packages for single and multiple engines
- Pictures of all components
- Capability to print an order for review or save into a file for future use
- Options to display pricing at cost, suggested retail or no pricing at all
- Order placement with a P.O. is point and click direct through E-RIG
- Your pricing shown is the same as invoice

For one boat or 20, the new Evinrude® E-RIG tool will simplify the process of quickly selecting and ordering the right rigging parts the first time. E-RIG is available now on BOSSWeb. Go to BOSSWeb and navigate to the PARTS section. Just click on the [E-RIG Rigging Configurator](#) link to launch the application to get started on your first order.

If you have questions or need assistance with any of the information, please call your BRP Sales Representative.

Portable 4-Stroke Rigging Selection

If using a manual process, select rigging for Evinrude® Portable 4-Stroke outboards in the following steps:

1. Select shift and throttle controls.
2. Select MWS to portable outboard adapter harness.
3. Select key switch.
4. Select MWS harness.
5. Select control cable.

Note: Reference Outboard Parts and Accessories Bulletin 2013–02P for additional rigging information.

Evinrude® Portable Engines-Binnacle Control

Follow these steps to rig a Single top mount Binnacle control:

Step One: Select binnacle control and adapter wire harness

Step Two: Select key switch kit

Step Three: Select length of MWS SystemCheck® harness

Step Four: Select Portable 4-stroke control cable and length

Refer to Parts and Accessories Bulletin 2013-02(P) for more information.

Control - Portable Engine Binnacle

These components are used to rig 2012 and newer 9.8 and 15 hp with binnacle style remote controls

- Requires Portable 4-Stroke SAE Control Cables
- Select length

P/N	Description	Pack qty
766578	Single Lever Binnacle Control without Key Switch	1
766579	MWS to Portable Outboard adapter harness (required)	1

Key Switch Kit - Single Engine

Connect to main electrical cable when using a control that is not pre-wired. Includes horn and emergency stop switch.

- Requires one SystemCheck® MWS wiring harness

P/N	Description	Pack qty
176408	Key Switch Kit	1
174653	Bezel Kit (bezel and 2 screws)	1

Wiring Harness, SystemCheck® MWS

P/N	Description	Pack qty
176339	MWS Wiring Harness - 12'	1
176340	MWS Wiring Harness - 15'	1
176341	MWS Wiring Harness - 20'	1
176342	MWS Wiring Harness - 28'	1

Cables - Portable 4-Stroke / SAE

These cables are designed specifically to fit Evinrude® and Johnson® remote controls on the input end and standard SAE fittings on the out output end for portable 4-strokes.

P/N	Description	Pack qty
176108	8' Portable 4-Stroke/SAE Cable Assembly	1
176109	9' Portable 4-Stroke/SAE Cable Assembly	1
176110	10' Portable 4-Stroke/SAE Cable Assembly	1
176111	11' Portable 4-Stroke/SAE Cable Assembly	1
176112	12' Portable 4-Stroke/SAE Cable Assembly	1

Evinrude® Portable Engines-Concealed Side Mount

Follow these steps to rig a Concealed Side mount control:

- Step One: Select concealed side mount control and adapter wire harness
- Step Two: Select key switch kit
- Step Three: Select length of MWS SystemCheck® harness
- Step Four: Select 3300C SAE style control cable and length

Refer to Parts and Accessories Bulletin 2013-02(P) for more information.

Control - Portable Engine Concealed Side Mount

These components are used to rig 2012 and newer 9.8 and 15 hp with a concealed side mount control.

- Requires 3300 Type Control Cables
- Select length

P/N	Description	Pack qty
766926	Concealed Side Mount Control	1
766579	MWS to Portable Outboard adapter harness (required)	1

Key Switch Kit - Single Engine

Connect to main electrical cable when using a control that is not pre-wired. Includes horn and emergency stop switch.

- Requires one SystemCheck® MWS wiring harness

P/N	Description	Pack qty
176408	Key Switch Kit	1
174653	Bezel Kit (bezel and 2 screws)	1

Wiring Harness, SystemCheck® MWS

P/N	Description	Pack qty
176339	MWS Wiring Harness - 12'	1
176340	MWS Wiring Harness - 15'	1
176341	MWS Wiring Harness - 20'	1
176342	MWS Wiring Harness - 28'	1

Cable Assembly, 3300 Type Control

Universal (or 3300/33) type throttle/shift control cables are direct replacements for many boats using aftermarket controls or the following engine makers' controls: Mariner®, MerCruiser®, Mercury®, BMW®, Chrysler®, Honda®, Nissan®, Suzuki®, Tohatsu®, Volvo®, Yamaha® and others. For twin stations and other demanding applications, we recommend TFXtreme®.

E-RIG Rigging Configurator

The recommended rigging selection tool.

BRP is excited to announce Evinrude® E-RIG, Evinrude's newest outboard rigging component selection tool.

E-RIG is a user-friendly web-based tool designed to make selection of Evinrude® rigging components efficient and easy. You can match selection of rigging components specifically to your customers boat application and design.

E-RIG key features are:

- No setup, special software or extra cost required
- Simple point and click selection based on the engine model and horsepower
- Streamlines the building of a line-by-line customized rigging order
- Assembles Evinrude® rigging packages for single and multiple engines
- Pictures of all components
- Capability to print an order for review or save into a file for future use
- Options to display pricing at cost, suggested retail or no pricing at all
- Order placement with a P.O. is point and click direct through E-RIG
- Your pricing shown is the same as invoice

For one boat or 20, the new Evinrude® E-RIG tool will simplify the process of quickly selecting and ordering the right rigging parts the first time. E-RIG is available now on BOSSWeb. Go to BOSSWeb and navigate to the PARTS section. Just click on the [E-RIG Rigging Configurator](#) link to launch the application to get started on your first order.

If you have questions or need assistance with any of the information, please call your BRP Sales Representative.

Evinrude® i-Dock Joystick System

NOW, OWNERS OF OFFSHORE CENTER CONSOLES, POWER HIGH PERFORMANCE CRUISERS AND MULTI-ENGINE PONTOON APPLICATIONS CAN ENJOY THEIR TIME ON THE WATER WITHOUT THE STRESSES OF PULLING IN FOR FUEL, SQUEEZING INTO A NARROW **SLIP OR LAUNCHING/RETRIEVING AT A BUSY LAUNCH RAMP**.

SPEED SENSITIVE POWER ASSIST STEERING With customizable steering effort and response along with speed-sensitive helm turn ratios, the i-Dock power steering system provides virtually effortless steering control at all RPM speeds – from idle to wide-open throttle. Users can set the lock-to-lock steering ratio according to boat speed in order to fit their unique needs. Engine alignment, also known as toe-in and toe out, can be fine tuned to deliver maximum hydrodynamic efficiency. i-Dock supports 3rd party auto-pilot controls without the expense of additional steering components.

360-DEGREE MANEUVERING AGILITY With fingertip control the operator easily moves the 3 axis joystick docking control to easily negotiate crowded areas, dock the vessel for tie up and even to load and unload the boat from a trailer. Rudder position sensors allow twin Evinrude® E-TEC® engines to be controlled independently or in tandem to maneuver the boat sideways, diagonally, forward and backwards, rotate on its axis or even crab-over sideways to accomplish tricky docking maneuvers. The unique BOOST mode provides increased docking power in wind and water current. It is so easy.

PERFORMANCE FEATURES:

- User adjustable speed sensitive helm turn ratios.
- User adjustable steering resistance and steering response.
- Three axis joystick with guided feel and boost mode.
- Independently steered engines.
- Smart Cylinders with rudder position sensors.
- Compatible with 3rd party autopilot systems.
- On demand hydraulic steering pumps for lower power consumption.
- Service valves maintain engine alignment without tie bars.

SAFETY AND RELIABILITY FEATURES:

- Sealed, waterproof locking cable connections.
- Designed for harsh marine environments.
- Safety-first redundant electronics, hydraulics and fault tolerant networks give peace of mind for reliability and superior quality.

Trim Control - Steering

Steering Trim Control unit provides trim control without removing hands from steering wheel.

- Place engine trim control at your fingertips for maximum safety and ease of operation
- Enhances control of any high performance boat
- Weather proof switch mounts easily to steering wheel
- Molded of black plastic with raised white letters
- T.H. Marine p/n ST-1

P/N	Description	Pack qty
504278	Steering Trim Control	1
176534	"Y" Connector Only - 6"	1

Trim Control - Floor Mount

Floor mounted trim control for high performance bass boats.

- Mounts in floor of boat under the console
- Allows operator to trim engine with foot
- Comes pre-wired with wiring instructions to connect it to existing trim wiring
- T.H. Marine p/n HT-1

504280

P/N	Description	Pack qty
504280	Floor Mount Trim Control	1
176534	"Y" Connector Only - 6"	1

Connectors - Trim "Y"

To provide electrical connections to "tap into" the trim harness with a second trim switch (i.e. bow mounted trim).

176588

P/N	Description	Pack qty
176534	"Y" Connector Only - 6"	1
176588	"Y" Connector with 13' Cable no Switch	1

Trim Plates & Spacers - Remote Control

Cover plates and spacers are available for the current style Evinrude® controls. Although the controls are designed to fit a wide variety of boat consoles and applications, you may encounter situations in a repower or service replacement when the new control does not fit the old cutout exactly right. These control box cover plates provide a convenient way to cover the screw holes and cutout left from the old control. They eliminate the need for fiberglass repairs plus are weather and waterproof. These attractively priced spacers are custom designs for an exact fit from the old control to the new controls and are available in 3 colors.

Trim Plates - Dual Binnacle

Used to cover older dual lever binnacle control cutout hole and fit to current style dual binnacle control.

764232

P/N	Description	Pack qty
764231	Trim plate, dual binnacle, white	1
764232	Trim plate, dual binnacle, off white	1
764233	Trim plate, dual binnacle, black	1
765073	Wedge Plate, White, 1", dual lever control	1
765074	Wedge Plate, Off-White, 1", dual lever control	1

Trim Plates - Single Binnacle with Key

Used to cover cutout hole for older single lever binnacle with key and fit to current style single binnacle with key.

764235

P/N	Description	Pack qty
764234	Trim plate, single binnacle with key, white	1
764235	Trim plate, single binnacle with key, off white	1
764236	Trim plate, single binnacle with key, black	1
765112	Wedge Plate, White, 1", OMC single lever control	1
765113	Wedge Plate, Off-White, 1", OMC single lever control	1

Trim Plates - Single Binnacle No Key

Used to cover cutout hole for older single lever binnacle, no key and fit to current style single binnacle no key.

764238

P/N	Description	Pack qty
764237	Trim plate, single binnacle without key, white	1
764238	Trim plate, single binnacle without key, off white	1
764239	Trim plate, single binnacle without key, black	1
765110	Wedge Plate, White, 1", new single lever control	1
765111	Wedge Plate, Off-White, 1", new single lever control	1

Trim Plates - Concealed Side Mount

Used to cover cutout hole for older concealed side mount and fit to current style concealed side mount.

764241

P/N	Description	Pack qty
764240	Trim plate concealed side mount, white	1
764241	Trim plate concealed side mount, off white	1
764242	Trim plate concealed side mount, black	1

Spacers - Concealed Side-Mount

Used to increase clearance between bulkhead and control handle grip of current style concealed side mount.

764243

P/N	Description	Pack qty
764243	Spacer, 1/2" thick, black	1

Note: 5/8" Maximum bulkhead thickness allowed before spacer installation.

Trim Plates, ICON™

Used to cover cutout hole of BRP mechanical shift binnacle controls.

765075

765077

765079

P/N	Description	Pack qty
765075	Trim Plate, single binnacle to ICON™ single, white	1

765078	Trim Plate, single binnacle to ICON™ single, off white	1
765079	Trim Plate, dual binnacle to ICON™ dual, white	1
765080	Trim Plate, dual binnacle to ICON™ dual, off white	1

Spiral Wrap, Black Polyethylene

- UV resistant
- Bundle wires, cables, hoses and tubing firmly
- Permits breakouts at any point and is easy to route or reroute
- Resists abrasion
- Wraps on like tape and can be reused quickly and simply

504042

P/N	Description	Pack qty	Size
504042	Spiral Wrap	1	1/4" x 100'
504043	Spiral Wrap	1	3/8" x 100'
504044	Spiral Wrap	1	1/2" x 100'
504045	Spiral Wrap	1	3/4" x 100'
504046	Spiral Wrap	1	1" x 100'

Flex Hose / Braided Sleeve

- Light weight, flexible jacketing for bundling and protecting wire, cable and hoses
- Creates clean, neat appearance and keeps wire, cable and hoses out of the way
- Resistant to most chemicals; will not rot or deteriorate in sun or salt water
- Used on current production engines
- **Sold by spool only**

P/N	Description	Spool size	Applications
336545	Braided Sleeve	1 1/2" x 72"	Oil Lines
508366	Braided Sleeve	1 1/2" x 50'	Battery Cables & Control Cables
508365	Braided Sleeve	1" x 50'	Fuel Lines
508364	Braided Sleeve	5/8" x 75'	Electrical Boat Wiring & Trailer Harness
508363	Braided Sleeve	3/16" x 100'	
343912	Braided Sleeve	1 3/4" x 96"	for DI
775400	Braided Sleeve	1 3/4" x 50'	for DI

Cable Boot, Motorwell

- Motorwell boot effectively meets the ABYC standards.
- Made of vinyl Plastisol, resists oil, gas and salt water
 - Easily installed, covers holes to 10 cm (4") diameter

771970

P/N	Description	Pack qty
771970	Cable Boot	1

Cable Boot, Open Motorwell

The first truly functional cable boot. Eliminates the need to split or cut your motor well boot to pass cables through. Provides a fully open area to pass wiring and cables through, when rigging is complete simply pull cable tie snug around wires and cable to complete installation.

- Easy to install
- Constructed of rugged black vinyl that resists ultraviolet rays, gasoline and oil
- Available in two sizes to cover all installation requirements

504300

P/N	Description	Pack qty
504300	3" Motor Well Cable Boot	1
504301	4 1/2" Motor Well Cable Boot	1

Hose, Split Conduit

- Flame retardant cable/wire harness cover
- Split for easy access to route wires
- Polyethylene

503956

P/N	Description	Pack qty
503956	1/2" ID X 50' Roll	1
503955	3/4" ID X 50' Roll	1
503957	1 1/2" ID X 50' Roll	1

Cables - Battery with Terminals

The Evinrude®/Johnson® battery cable product line has been developed using a thermoplastic elastomer (TPE) jacket compound versus the standard PVC insulation.

- Thermal range - 55° C to 105° C
- Enhanced flexibility
- Higher resistance to fuels, oils and abrasion

Crimper, HD Battery Terminal

Crimping tool is specifically designed to crimp large, heavy duty cable terminals.

502224

P/N
Description
Pack qty

Shears, Copper Cable

Power-grip, heavy duty wire and cable cutting shears are designed to cut virtually all copper battery cable. Power engineered design transfers maximum cutting action with minimum cutting effort allowing an easy cut of 2/0 gauge cable.

502226

- Blades are knife-edged for smooth, effortless cutting and heat treated for long, dependable operation
- Point of Purchase Packaged

P/N	Description	Pack qty
502226	Copper Cable Shears	1

Heat Gun

The easy-to-use heat gun offers variable temperature control that allows the user to dial in any temperature from ambient to 1050° F (565° C).

502929

- Airflow rating is 15 CFM at 3650 FPM
- Thermostatic control maintains the pre-selected temperature and prevents heat back-up or overheating when airflow is restricted
- Supervisor temperature lock-in feature allows pre-setting of temperature and sealing of access opening to assure compliance with pre-set temperature

P/N	Description	Pack qty
502929	Heat Gun	1
502928	Shrink Attachment for Use with Connectors and Terminals	1

Heat Shrink Tubing

Multiple wall polyolefin tubing with meltable inner wall. Tubing comes in a variety of sizes to fit from 22 gauge to 2/0 gauge wire. By heating the tubing it adheres to the wire giving a tight,

durable moisture-proof seal, resistant to salt and other corrosive compounds.

- All tubing comes in 6" lengths

1. Choose the proper size tubing to fit the wire size
2. Slide the tubing over area desired to seal
3. Apply heat with heat gun or some other heating device until tubing recovers and the adhesive flows

502518

502520	3/4" (.750)	0.313	2-2/O	Black	5

Black Neoprene Dip

A 5 ounce can of liquid neoprene. When applied to electrical terminals it will provide superior protection from corrosion.

- Used in production on terminal board and remote control electrical terminals
- Useful for protecting other electrical terminals where corrosion has been a problem

909570

P/N	Description	Pack qty
909570	Black Neoprene Dip 5 ounces	1

Hole Saws

Hole saws for instruments.

Hole saws

P/N	Description	Pack qty
172877	2 1/8" Hole for all 2" Instruments	1
172878	3 3/8" Hole for all 3" Flush-Mount Instruments	1
173550	2 1/2" Hole for Concealed Side-Mount Controls	1
172879	Drive Arbor	1

Wiring Harness Connector Dielectric Grease

Proven for marine, automotive and truck applications. Superior connector lubricant/sealant based upon synthetic hydrocarbon base oils.

- Oxidation resistant
- Proven salt water soak/spray resistance
- Prevents corrosion of terminals
- Reduces insertion forces
- Packaged in easy-to-use syringe dispensers or 4 oz. squeeze tube

Wire - Primary, Tinned

Recommended by the American Boating and Yacht Council and the U.S. Coast Guard for marine applications where exposure to salt water spray is inherent, tinned copper wire offers the optimum protection against corrosion.

- 105° C thermoplastic wire and conforms to SAE standard J-1128 and federal regulations 33 CFR 183 subpart 1.

Trim and Tilt Motor Bracket Model 55, Panther™ Marine

The compact Trim and Tilt Model 55 conveniently matches outboards from 15 to 55 HP, weighing up to 250 pounds. Perfectly designed for pontoons, fishing or pleasure boats.

778744

P/N
Description
Pack qty

Trim and Tilt Motor Bracket Model 135, Panther™ Marine

The model 135 is the perfect option for older outboard motors with bad hydraulic trim and tilts. The heavy duty bracket is designed for outboards up to 135 HP or 350 pounds.

- Adapts to clamp on or bolt-through outboards

778745

P/N
Description
Pack qty

Pro Strap Kicker Tie Down Motor Bracket, Panther™ Marine

The Panther™ Pro-Strap provides hands-free, heavy duty retention for the Model 35.

- Adjustable buckles and stainless clevis are included
- For TNT model 55-0035 and 55-0350 only

778763

P/N
Description
Pack qty

Static Motor Mount Plate Model 405, Panther™ Marine

If trolling motors are your thing - then the 405 static plate is a must. the Panther™ static motor mount plate provides a flat secure mounting surface for clamp on or bolt on kicker motors up to 40 HP or 150 pounds.

778765

P/N	Description	Pack qty
778765	Static Motor Mount Plate Model 405	1

Transom Wedges

- Construction allows for full, positive contact between engine bracket and transom
- Fit newer model Evinrude®/Johnson® and Mercury® engines, bolt-on engines with factory installed tilt and trim
- Cast aluminum
- T.H. Marine p/n TW-2

504311

P/N	Description	Pack qty
504311	Transom Wedges	1

Motor Lift, Auxiliary, Panther™ Marine

The heavy duty bracket easily handles auxiliary outboards up to 40 HP or 150 pounds. Ideal for inboards, I/Os, jet-drives and outboards when over the transom mounting is unavailable.

- Use of Pro Strap Kicker Tie Down is recommended
- 778742 fits Triton® boats and others (Mfg PN 55-0035)
- 778743 fits Ranger® boats and Lund® Pro V boats (Mfg PN 55-0350)

Static Plate, Bobs Machine

Auxiliary engine mount plate

- Use to install auxiliary kicker engine to transom of multi-species type fishing boats.
- Recommended for 15H.O., 25 and 30 HP Evinrude® E-TEC®
- Up to 183 lbs.
- Includes engine mounting hardware to secure engine to the plate.
- **DOES NOT** include hardware to secure plate to the boat.

765459

P/N	Description	Pack qty
765459	Bobs Machine Static Plate	1

Oil Tank Kit - Pontoon Series

This kit is designed to fit 40, 50, 60, 60 H.O., 75 and 90 HP outboards 2010 "F" suffix and newer models (20" and 25" shaft length) with a remote oil tank.

Model	Year	P/N
40, 50, 60	2010 "F" Suffix -thru	768407
60 H.O., 75, 90	2010 "F" Suffix -thru	767511

FEATURES:

- Automatic refill of outboard-mounted oil tanks
- Electrically operated by the low-oil signal in the engine oil tank
- 1.8 (6.81L) gallons of additional oil capacity
- Removing the engine cover is no longer required to refill the tank
- Simple installation

The Evinrude® E-TEC® pontoon series remote oil tank kit includes:

- 1.8 gal (6.81L) oil tank and pump assembly
- 20 ft. SystemCheck® interface wire harness
- Battery power harness
- All outboard oil tank conversion parts

767511

Oil Tank Kits without Oil Level Sender

Oil tank kits come complete with mounting hardware, oil supply hose and primer assembly.

- 1.8 gallon (10.2" L x 7.8" W x 9" H)
- 3 gallon (11.8" L x 8" W x 11" H)
- 5008617 Oil supply hose is 1/4", 15 ft. long
- 5008613 Oil supply hose is 1/4", 25 ft. long

Oil Tank Kits with Oil Level Sender

Oil tank kits come complete with mounting hardware, oil supply hose, primer assembly, and installed oil level sender.

- 1.8 gallon (10.2" L x 7.8" W x 9" H)
- 3 gallon (11.8" L x 8" W x 11" H)
- 5008619 Oil supply hose is 1/4", 15 ft. long
- 5008615 Oil supply hose is 1/4", 25 ft. long
- **Requires additional oil level converter**

5008619

P/N	Description	Pack qty
5008619	1.8 Gallon Tank with Sender (15' hose)	1
5008615	3 Gallon Tank Kit with Sender (25' hose)	1

Oil Level Converter Kits, I-Command™

Used to convert oil level sender signal to NMEA 2000® oil level signal. Available for 1.8 gallon, 3.0 gallon or 10 gallon oil tanks as well as for single, dual or triple engine applications.

- Oil level converter kits include the converter cable and network tees

765311

P/N	Description	Pack qty
765311	Oil Level Signal Converter Kit, single tank - includes 1 signal converter for 1 oil tank	1
765312	Oil Level Signal Converter Kit, twin tanks - includes 2 signal converters for 2 oil tanks	1
765313	Oil Level Signal Converter Kit, triple tanks - includes 3 signal converters for 3 oil tanks	1

Mounting Hardware - 1.8 Gallon Tank Replacement

For 1.8 gallon tank.

P/N	Description	Pack qty
862	Replacement Mounting Hardware	1

Oil Pick-Up Kits

May be added to the 3.0 gallon tank to operate two oil injection equipped engines from one oil tank.

- Select 3 gallon tank pick-up for installation to 10 gallon oil tank.
- One per engine required.

5008614

P/N	Description	Pack qty
5008614	3 Gallon Tank and 10 Gallon Tank, Oil Pick-up (25' hose)	1
5008618	1.8 Gallon Tank, Oil Pick-up	1

Oil Tank Assembly - 10 Gallon

For twin and triple engine installations, direct injection or carbureted. Uses Evinrude®/Johnson® oil pick up assembly p/n 5008614 - one pickup assembly per engine. Installer will be required to drill a third hole for third engine oil pickup.

- 11.25" H x 30.75" L x 9" W
- Two holes drilled for twin pickups
- Oil level sender
- Molded fitting for fill and vent hose
- **Select additional oil level converter kit, I-Command™ oil level signal converter kit, single tank.**

776580

Warranty to be provided by Rabud™.

P/N	Description	Pack qty
776580	10 Gallon Tank Assembly	1

Oil Fill Kit, Remote

Mounts on deck for remote filling of oil injection tank.

- Includes tank cap and vented deck fitting

P/N	Description	Pack qty
176461	Remote Oil Fill Kit	1
766907	25' Oil Fill Hose to Connect Kit and Tank (not for gasoline) - 1½" I.D.	1

Hose - Fuel Line-EPA Guidelines

The EPA and CARB have mandated reduced fuel permeation from specific fuel system components. The legislation applies to all marine manufacturers and component suppliers of fuel hoses, primer bulbs and portable fuel tanks.
 BRP achieved the EPA mandate and CARB compliance for low permeation fuel hoses in 2009. The EPA and CARB requirement for low permeation primer bulbs and portable fuel tanks went into effect on January 1, 2011 and BRP has now met that requirement.
 As a user of Evinrude®/Johnson® Genuine Parts you can install and sell our components with complete confidence of compliance to the regulations and achieving the same level of durability, reliability and quality.
 The fuel components listed are all EPA and CARB compliant.

Fuel Tank - Dura-Tank™ 6 Gallon EPA Compliant

- **EPA Compliant**
- Quick disconnect fuel fitting
- Auto one-way venting
- Built-in fuel gauge
- Withstands alcohol extended fuels
- Self-sealing fuel connector
- Excess fuel line storage

P/N	Description	Pack qty
5008623	6 Gallon (22.7 Liter) Fuel Tank - EPA Compliant	1
767525	Replacement Cap (POP)	1

Fuel Tank - Dura-Tank™ Universal EPA Compliant

Now all of your customers can have the Dura-Tank™. The same durable construction without the quick disconnect.

- **EPA Compliant**
- Equipped with 1/4" NPT thread

P/N	Description	Pack qty
5008621	6 Gallon Universal Fuel Tank - EPA Compliant	1
767525	Replacement Cap (POP)	1

Fuel Tank - Dura-Tank™ Anchor Kit

The Dura-Tank™ anchor kit provides a perfectly matched tray to securely hold a Dura-Tank™ or steel tank from shifting or sliding.

- Tray can be installed in minutes with six stainless steel screws
- Anchor tray strap has a quick disconnect buckle allowing the tank to be removed and replaced easily
- Point of Purchased Packaged

Remote Control Adapter

Evinrude® E-TEC® 25-30 HP - Converts tiller controlled engines to "remote" shift and throttle control.

1. If converting a DT model outboard (tiller with power trim and tilt), Trim and Tilt Harness, P/N 587028 is required to control trim function from remote control trim switch.
2. If installation of a trim gauge is desired, order sending unit and mounting hardware separately.
3. Refer to appropriate parts catalog. For remote steering order Steering Connector Kit, P/N 5009753.

5007742

P/N	Engine	Year
5007742	Remote Control Adapter Evinrude® E-TEC® 25-30 HP	2009-thru

Steering Friction Kit

This kit adds external steering friction to engines that have a tiller kit installed (included in 75–115 HP tiller kits).

5007322	Steering Friction Kit (40-115 HP), 2004-AB	1

Kicker Cable Tie Bar, SeaStar®

This SeaStar® product allows a user to manually steer an auxiliary engine (kicker motor) using the existing SeaStar® hydraulic steering system. Today this is accomplished with a variety of solid mechanical linkages between the main engine and the auxiliary engine. Teleflex® has developed a patent pending design that incorporates a Teleflex® Extreme cable as a linkage between the two engines.

Features:

- Flexible cable allows for adjustable locations of kicker motor.
- Allows independent trim/tilt of both engines.
- Allows full steering stroke of both engines.
- Simplified installation using universal ABYC steering connection (as per ABYC P17 & P21 standards)
- Retrofit to SeaStar® Front Mount Cylinders.
- Incorporates unique Teleflex® Extreme cable technology.

Steering Packages, BayStar™ Hydraulic

With mechanical steering you sacrifice a degree of comfort, and traditional hydraulic systems may be more than is needed on lower horsepower engines. The solution is finally here - Built in the tradition of SeaStar®, BayStar™ brings the same safety and comfort now common on larger outboard powered boats with 150 HP (Total). BayStar™ hydraulic steering is brought to you by the manufacturers of SeaStar®, the most trusted name in pleasure boat steering.

- Designed just for smaller outboards
- Low friction hydraulic steering system
- 4.5 turns from lock to lock
- Balanced cylinder, featuring a compact design that fits most splashwells and provides full engine movement
- Compact helm has only a 5" footprint; needs only 3" dash hole (standard or tilt)
- Packaged complete with helm, cylinder, fittings, tubing, oil, fill kit and detailed instructions
- Standard $\frac{3}{4}$ " tapered steering shaft
- Enough cut-to-fit tubing for either 20' run is supplied
- Fast, easy installation
- Meets NMMA® certification requirements

776814	Bay Star Hydraulic Steering, 20' Hose - 150 HP & Below	1

Steering Fluid, SeaStar®

SeaStar® hydraulic steering fluid is formulated to provide the best performance for your SeaStar/BayStar steering system. A perfect blend of viscosity stabilizers, anti-wear agents and corrosion inhibitors will ensure maximum steering life performance.

SeaStar® Electronic Power Steering Fluid, is used for electro-hydraulic steering systems on boats.

Steering Module, Power

SeaStar® Power Assist steering brings automotive-type steering comfort and control to powerboats.

The addition of a Power Assist unit will greatly reduce steering effort and enhance the boating experience for everyone.

The SeaStar® Power Assist steering unit is designed for use with SeaStar® manual hydraulic steering systems and is suited for all heavy / high torque steering applications.

Features:

- Dramatically reduces wheel torque
- Easy to install
- Simple 'add on' to an existing SeaStar manual system (optimal performance achieved when used with SeaStar 1.4 – 2.0 pumps)
- OEM or Retro fit
- Compatible with power purge system
- Reverts to manual mode in the case of power loss.
- Suitable for use with autopilots
- 12v operation
- Wall or floor mounted
- Wiring harness, and mounting bracket included
- Ignition protected (SAE J-1171)
- ABYC, CE, NMMA, ISO 10592 Approved

Raker® H.O. with Variable Vent Port (VVP)

Fast, Fast, Fast. The Raker legend lives on with the Raker® H.O. The Raker propeller line has always set the highest standard in top speed performance. The Raker H.O. is the next evolution in the line maximizing the superior power and torque of the Evinrude® E-TEC® G2 outboard and every V6 Evinrude®/Johnson® before it. Tight tolerances, precision manufacturing, and hand finishing - move the Raker® H.O. one step closer to a high performance custom propeller.

Complimenting the legend are the new Variable Vent Ports (VVP) for custom acceleration calibration. Set your boats hole shot from mild to wild.

- Available in right hand rotation sizes 22, 24, 25, 26 and 28 pitch.

Rx4™ with Variable Vent Port (VVP)

The Rx4™ is a no compromises 4 blade propeller. Rx4™ masters the power curve of the new Evinrude® E-TEC® G2 engine. It is optimized for traction and rough water performance with industry leading speed, acceleration, and fuel economy. It delivers superior bow lift on larger boats and does not slip in turns.

- Variable Vent Ports - VVP let you custom tune acceleration for blistering hole shots.
- Every propeller is hand finished and precision gauged for quality and consistency.
- Available in right hand rotation sizes 18, 20, 22, 24, 25 and 26 pitch.
- Available in left hand rotation sizes 18, 20, 22, 24 pitch.

Raker® & Raker II® - Bass and High Performance

Looking to plane fast - and run faster? The Raker II® prop is specially designed for building up engine RPMs and getting you on plane faster. A great prop in surfacing conditions, especially when the boat is running over 50 mph. Perfect for bass boats and high performance boats. The Raker® propeller utilizes vent holes in the outer exhaust hub to allow exhaust gases to ventilate the blade area. This allows the engine to build up RPMs and get the boat on plane faster. At higher speeds, the water rushing past the hub blocks these vent holes, preventing them from ventilating the blades. **V6 Raker II® 22, 24, 26, & 28 use the TBX™ hub system.**

- Fast, Fast, Fast...
- Custom cupped high rake blades provide superior bow lift and exceptional top end speed
- Special vent holes for powerful acceleration
- V4 & V6 engines

Rebel™ - Offshore and Cruising

The Rebel™ propeller is designed and engineered to deliver improved midrange cruising and top end performance on V6 Evinrude® E-TEC®. Large diameter and efficient blade contour provide faster speeds at lower RPMs to deliver significant improvement in fuel economy. Your customers will get more miles to the gallon and a longer cruising range. Standard rotation and counter rotation models are available from 15 to 25 inch pitch. Use the Rebel™ propeller on offshore boats, large runabouts, and even large pontoon boats to make them perform to their maximum potential.

- High polish stainless steel
- Designed and engineered for efficient midrange cruising
- Improved fuel economy with longer cruising range
- Use on offshore boats, large runabout, and pontoon boats.

Cyclone™ - 4-Blade Offshore Cruising and Runabouts

When you need a prop that can hold course straight and true in all water conditions, trust the Cyclone™ prop to maintain compass headings and stay hooked up in big water. Designed for heavier and twin-engine boats as well as runabouts. **Cyclone™ uses the TBX™ hub system.**

- Ultimate performance 4-blade offshore and runabout propeller
- Stays on plane with minimum RPM
- Tracks true in all water conditions
- Less vibrations and improved fuel economy
- V6 engines

Viper™ - Runabouts and General Recreation

If you want speed, you want the Viper™ prop. Its longer swept blades and a larger diameter give this prop a better grip on the water faster acceleration, and greater top end speed. Excellent on any recreational boat, from runabouts and cruisers to deck boats.

- Versatile 3-blade performance
- Custom high luster finish
- Balance of speed and durability
- V4 & V6 engines

Rogue™

The new Rogue™ propeller for the 20" shaft, 40 through 115 hp Evinrude® E-TEC® provides faster acceleration and faster top speeds in stern heavy boats. Flats boat operators will appreciate this propellers ability to lift the transom and accelerate cleaner in shallower water.

- Stainless steel 4-blade design
- Polished, high luster finish
- Available in 13, 15, 17, 19, and 21 inch pitch sizes

**SSP Prop - General Purpose and Durability**

Since stainless steel is five times stronger than aluminum, the SSP can be designed and cast with thinner blades...blades that are cupped to provide better performance.

This versatile prop is an ideal upgrade replacement for aluminum propellers and provides greater performance for water skiing. If a customer has an aluminum propeller, a "direct pitch" replacement (same pitch and diameter) is recommended when upgrading to an SSP.

- Fast planing 3-blade versatile prop
- Ideal upgrade from aluminum
- Cupped blades provide superior performance

**Hydrus® - Pontoon and Work Boats**

A high-thrust prop designed and manufactured to meet the specific performance needs of pontoon boats and work boats. This three-blade prop provides an oversized blade area for maximum thrust and stability (it will keep its grip even when most of the weight is near the bow) and aggressive cupping for tight, balanced turning. The result? A high-thrust prop that bites the water and hangs on tight.

- Aggressive cupping holds tight in turns
- Big blade area for high reverse thrust
- Special blade contour delivers maximum thrust in any water condition

**Evinrude®/Johnson® Aluminum™ Props**

- **More Performance for the Money!** Evinrude®/Johnson® props are cast with a custom aluminum alloy to give them greater strength and longer life than ordinary propellers. Many of the Evinrude®/Johnson® outboards are speed cupped for better top end performance. Special baked-on corrosion-resistant paint gives added protection against salt water and galvanic corrosion.
- Precision casting provides greater strength and longer life
- Baked-on corrosion-resistant paint gives added protection
- Engineered to match the power curve of your outboard for superior performance

**Propeller Note**

This catalog is not intended to be an all inclusive listing of propellers for every Evinrude®/Johnson® outboard. Refer to the specific engine parts catalog for engines not listed.

Index**TBX™ Propeller Hub System**

For Evinrude®/Johnson® Introducing the TBX™ Multiple Piece Propeller Hub System from Evinrude®/Johnson® Genuine Parts. The TBX™ prop hub system adds a new level of durability and reliability to the V6 stainless steel propellers. TBX™ is designed to flex and cushion shock loads to help protect the lower unit drivetrain. The patented torsion sleeve and drive spline withstand extreme temperatures especially in high performance applications.
 A TBX™ prop hub kit is a multi-piece design and slips together keeping the installation simple. Replacement parts are available in kits or separately.
Look for the TBX™ designation in the V6 prop chart to determine availability.

**TBX™ Competitor Propeller Hub System**

We DARE You to Try Our Props on Competitor Outboards! Our interchangeable TBX™ hub kit is designed to fit Mercury®, Yamaha®, Honda®, and Suzuki® V6 outboard engines.
 This kit lets you install a Raker II® TBX™, Renegade® Bass TBX™, and Cyclone™ TBX™ propellers on competitor outboards.
 TBX™ Propeller Hub Kit P/N 177288 for competitor outboards available July 2009.

SUZUKI / MERCURY / HONDA / YAMAHA PROPELLER HUB KIT

(Suzuki / Mercury / Honda / Yamaha V6 Gearcases)

Aluminum Propeller Interchangeable V4 Hub System

For Evinrude®/Johnson® each propeller includes a hub kit of P/N 765195 for a V4, fitting an Evinrude®/Johnson® outboard. Each hub kit includes the rubber torsion bushing, thrust washer, spacer and instructions. Accessory hub kits are required to install the propeller on competitive brands of engines. Select the accessory hub kit for competitive engines from the listing in this section.

Aluminum Propeller Interchangeable V6 Hub System

For Evinrude®/Johnson® each propeller includes a hub kit of P/N 765190 for a V6, fitting an Evinrude®/Johnson® outboard. Each hub kit includes the rubber torsion bushing, thrust washer, spacer and instructions. Accessory hub kits are required to install the propeller on competitive brands of engines. Select the accessory hub kit for competitive engines from the listing in this section.

Hydrus® Propeller Exhaust Ring

Improves midrange engine operation and performance on Evinrude® E-TEC® 40, 50, 60, 75, and 90 HP engines. The Hydrus® propeller exhaust ring should be used on gearcases fitted with Hydrus® propellers, part numbers 177201, 177202, and 177203. If there are any questions refer to parts and accessories bulletin 2005-01 (P).

5006512

P/N	Description	Pack qty
5006512	Hydrus® Propeller Exhaust Ring	1

Ventilation Ring (for V-6 Only)

126669 ring should also be installed when severe ventilation is experienced with service-replacement gearcases or on 1993 20" V6 gearcases. Fits "L" and "O"-type gearcases only (not for Magnum Gearcases). See Service Bulletin 2262 and 2003-OI-P

126669

P/N	Description	Pack qty
126669	Ventilation ring (see Service Bulletin 2003-OI-P)	1
346462	Exhaust ring for 3-blade standard hub props (for use with Magnum or M Type Gearcase - and all propellers except Renegade)	1
350626	Ring, for use on Renegade Bass props on Magnum gearcases	1

Propeller Wrench

Non-floating propeller wrench for Evinrude® and Johnson® 50 HP V4 20" outboards. Not for V6 outboards.

770242

P/N	Description	Pack qty
770242	Propeller wrench 1 1/16"	1

Oil, XD100™

XD100™ synthetic formula oil provides uncompromising lubrication and superior performance - even in extreme conditions.

XD100™ oil is a premium formulation with synthetic additives that delivers ultimate performance while providing the opportunity to reduce oil consumption. If an authorized dealer programs an Evinrude® E-TEC® outboard EMM to use XD100™ oil, you can reduce normal oil consumption compared to using a conventional oil. Only an authorized Evinrude® dealer can program your engine for this benefit.

- Uncompromised lubrication -XD100™ is specifically formulated for Evinrude® E-TEC®, Evinrude® direct injection and oil injection outboards
- Ultimate lubricity for reduced friction and wear
- Maximum detergency for reduced combustion deposits
- Smokeless, odorless, and ashless

Oil, XD50™ Synthetic Blend

XD50™ is a performance enhanced synthetic blend oil that meets the specific demands of direct injection outboards and 2-Stroke outboards that specify TC-W3 certified oils.

- Reduced smoke for cleaner operation
- Protects against wear with superior lubricity
- Contains combustion cleaner to keep carbon in suspension and away from critical engine components
- XD50™ should be used in high load and performance applications for greater dependability, reliability and reduced maintenance
- Formulated for extreme weather conditions, works down to 0°F (-17°C)

Triple-Guard® Marine Grease

Triple-Guard® is a tough grease that stays in place and is unaffected by vibration, saltwater, or cold temperatures.

- Reformulated - higher water resistance and improved adhesion to metal
- Ideal for owner engine maintenance
- Won't swell seals, packing or O-rings
- Compatible with other greases
- Totally waterproof to prevent water wash-off
- Not for use in wheel bearings or universal joints

Gearcase Lubricant, HPF PRO™

HPF PRO™ is the high performance alternative to HPF XR™ gear lubricant.

Use HPF PRO™ gear case lubricant for high performance outboards, commercial fleets, rental operations and stern drives. A high-viscosity blend of enhanced friction reducers, anti-foam agents, and synthetic E-P additives systematically deliver exceptional durability and reliability with ultimate film strength. Marine-specific inhibitors and emulsifiers deliver unequalled protection against corrosion and lubricant breakdowns caused by water intrusion. HPF PRO™ .

Follow the procedures specified in the owner's manual or service manual for gearcase lubricant service.

- Promotes long gearcase life in marine use, especially in severe duty applications
- With optimized viscosity runs 24% to 29% cooler compared to Ultra-HPF™, plus it emulsifies water and won't foam

Anti-Corrosion Spray

Evinrude®/Johnson® Parts and Accessories anti- corrosion spray is a heavy, waxy coating specifically designed to protect your engine from rust and corrosion in the hostile marine environment. Our Anti- Corrosion Spray treatment has benefitted from extensive product testing which has resulted in superior protection. It is highly effective against corrosion caused by salt water and salt spray.

777193	Anti-Corrosion Spray, 11 oz Spray Can	12

2 + 4® Fuel Conditioner

Protects the complete fuel system, conditions fuel, and extends useful shelf life when added to fresh fuels.

All operator and service literature encourages the use of 2 + 4® fuel conditioner, for day-to-day operation, particularly during periods of engine non-use. Gasoline, as purchased at the pump, has a guaranteed shelf life of three months. 2 + 4® fuel conditioner extends the useful life of fuel in a number of ways.

- **Metal deactivators** - to render brass or copper alloy chemically inactive toward gasoline
- **Anti-oxidants** - to slow the chemical breakdown of gasoline
- **Double strength** - treats more fuel per ounce
- **Corrosion inhibitors** - to help reduce long term corrosion of metal fuel system components
- **Dryers** - to absorb and isolate moisture in the fuel system
- **Concentrated formula** - 8 oz. treats 32 gallons, 16 oz. treats 64 gallons, 32 oz. treats 128 gallons

Note: Order in multiples of dealer pack quantities.

Paint

Factory Matched to Your Evinrude® or Johnson® Outboard or Drive System. Refer To Individual Engine Parts Book For Specific Color Application.

- For best results, please review service bulletin 2275.
- Adequate mixing is required — agitate for one full minute. Let can stand upside down for one to two minutes. Then agitate for another minute.
- Proper mixing and at least four coats are required to come close to matching original paint.
- Can only be shipped ground transportation.

Credit

We will be pleased to extend credit privileges to those customers who qualify. **To apply for open credit, please complete our credit application form which is included in this catalog or can be acquired by contacting us, and attach current financial statement and information as stipulated on the Credit Application.** Orders will be shipped on a cash in advance basis until a credit line has been established. Once credit is established, periodic updates of credit information will be required.

Prices

Prices subject to change without notice and orders will be billed at prices in effect at the time of shipment.

Payment Terms

Open account terms are available on net 15th proximately (payment due on the fifteenth (15th) day of each month for shipments through the last billing day of the prior month). **Continuing open account terms will be granted only to those customers who continue to be current in their regular open account.** In addition, BRP US Inc. reserves the right at any time to require open account customers, as a condition of continuing to be dealt with on an open account basis, to execute necessary documents to secure BRP US Inc. financial interests in customer's open account. All other customer accounts will be placed on a prepayment basis.

If any amount on the customer's regular open account or dating order becomes past due and owing, in the event of a bulk sale or transfer of ownership, or in the event that any dealer agreement between BRP US Inc. and the dealer expires or is cancelled, BRP US Inc. shall have the right, at its option and without prior notice to the customer, to declare all amounts and balances owed to BRP US Inc. under any dating term account of the customer to be immediately due and payable, together with any amount past due and owing on the regular open account, all of which amounts shall then be subject to the service fee stated herein.

In the event any amount becomes past due and owing on the customer's regular open credit account, BRP US Inc. shall have the right to apply all credits, monies, balances or property of the customer held by BRP US Inc. and owed to the customer to the amount past due and owing on the customer's regular open credit account. The past due amounts of all accounts not paid in accordance with the terms set forth above shall be charged a service fee at the maximum rate permitted by law, not to exceed 1 1/2% per month (18% per annum). There will be a \$25.00 charge on returned checks.

Damaged Shipments

Please notify carrier (Motor Freight, UPS, Parcel Post) when you receive a damaged shipment, or suspected damaged shipment.

Shipment Shortages, Incorrect Parts and Non-receipt

Please phone in shortages and discrepancies to PAC customer service at (800) 888-4662 (option 1). Do not reorder parts in hopes that the correct part will arrive as we aim to have all customers receive the correct parts they order.

Shipments are considered complete if shortage is not reported within 10 days of receipt.

Propeller Exchange Program

The Propeller Exchange Program allows you to exchange new, current Evinrude®/Johnson® propellers on a dollar for dollar basis for propellers of a different style or size. The program covers propellers purchased from Evinrude®/Johnson® within the last 12 months, as well as propellers received with new engines. Propeller exchanges under this program may be made at any time during the year and as often as you require.

1. Return the propeller you want to exchange on an RCM form to BRP US Inc. Beloit, WI facility. In the box with the RCM form should be an order for the new propeller. When received, BRP US Inc. will credit you for the propeller returned and we will generate an order for the propeller requested. We will accept new, unused Evinrude®/Johnson® propellers with a stock activity code of 1, 2, 3 or 4 (see your current Master Parts Price Book for activity codes).
2. Returned propellers must be shipped to BRP US Inc. proper facility in new, unused and resaleable condition. **Propeller must be in the undamaged, original propeller carton.** Propellers that are shipped with engines that do not have a box, must be carefully packaged so they will not be marred or damaged in shipment. Any props returned that are not packaged or the boxes damaged will be charged a nominal reboxing fee. All propeller returns must be shipped freight prepaid to BRP US Inc.
3. If you have any questions regarding the propeller exchange program, please contact our dealer support group in Sturtevant, WI (800) 888-4662 (option 1).

Returns

1. All defective parts covered under warranty should be handled by a warranty claim submitted via BOSSWeb or using p/n 773629, submitted to the Warranty Department at Box 597, Sturtevant, WI 53177. Parts returns should be submitted at 10101 Science Drive, Sturtevant, WI 53177.
2. All returns unrelated to warranty must be **freight prepaid** to the Beloit distribution center.
 - BRP US Inc., Attn.: Returns, 3225 N. Prairie Avenue, Beloit, WI 53511
3. All returns must be in original parts packaging and in good resalable condition. Items needing to be re-boxed will be completed at a small charge to the dealer.
4. The following items are not returnable:
 - a. Literature
 - b. Drop ship items (custom motor brackets, cloth motor covers, shrink wrap, etc.) Please contact customer service at (800) 888-4662 (option 1) if you have any problems with a drop ship items.
 - c. Superseded, obsolete and discontinued parts (Activity code 7 in the Master Parts Price Book).
 - d. Electronic items that have been previously installed.
5. Handling Returns (except for Vintage Parts)
 - a. Parts can be returned freight prepaid to the Beloit distribution center if returned within 90 days of receipt. However, parts listed in item #4 above are not returnable, even within this 90 day period. Vintage Parts are not covered by this 90 day return policy and Allied Lines of marine accessories are returnable only according to the conditions below. Parts with activity codes of 1, 2 or 3 at the time of return (check latest Master Parts Price Book) can be sent back with no restocking charge. Parts with activity codes of 4, 5 and 6 may be returned with a restocking charge of 15% of the original invoice price. Any parts to be returned after 90 days of receipt will require written approval (Return Authorization Form) from BRP US Inc. prior to the return of the merchandise and will be subject to a 15% restocking fee. All other items should be returned on a standard RCM form P/N #11111 and shipped freight prepaid to the Beloit, WI distribution center.
 - i. Canadian returns must be shipped to: Bombardier Recreational Products, c/o Affiliated Global Logistics c/o Transplus Toronto, 7385 Bren Road, Unit 3, Mississauga, Ontario L4T 1H3.
 - ii. All shipments to the customs broker must be freight prepaid by the dealer.
 - iii. Please note, due to Border/Customs issues, credit may take up to 90 days to appear on your statement.
 - b. Allied lines of marine accessories may be returned to BRP US Inc. within 90 days of receipt and without approval from BRP US Inc. ONLY if the wrong item was shipped. In all other cases, the return must be in writing by BRP US Inc..
6. Vintage Parts Returns
 - a. Return of Vintage Parts is allowed under the following circumstances:
 - i. Vintage Part was damaged when received
 - ii. Vintage Part was not new when received
 - iii. Wrong Vintage Part was shipped
 - iv. *Returns must be made within 30 business days, in original packaging and must include a copy of the original packing slip .*
 - b. U.S. dealer ship to: Vintage Parts, 6306 202nd Street SW, Lynwood, WA 98036

Stock Activity Code Explanation

1. Most active part: should be considered as regular stock item.
2. Fast-moving part: should be considered as regular stock item by most dealers.
3. Less active part: should be stocked according to demand.
4. Slow-moving part: order only as needed.
5. Very slow-moving part: order only as needed.
6. For special order.
7. Obsolete and not available, and not returnable.

Ordering Information

Please specify quantity first then part number when ordering merchandise. This will enable us to give you prompt, efficient service.

All orders received are subject to acceptance and approval.

Vintage Parts shipped to Canada will incur duty and brokerage fees.

Cash-In-Advance Customer Freight Charge - 8% Shipping and Handling.

BOSSWeb Ordering

A computerized dealer support system, BOSSWeb, is available to provide authorized dealers with part availability inquiry, backorder status checking, and order entry capability. Contact your district sales manager, OEM regional sales director or customer service representative for details and a demonstration. Call customer service [(800) 888-4662 option 1] with any questions.

BOSSWeb Emergency Orders

- Use EM order type (Process Code/Order Type)
- \$15.00 priority handling fee (6 line maximum)

Emergency Orders

Index**BRP US INC. LIMITED WARRANTY****Evinrude®/Johnson® GENUINE PARTS AND ACCESSORIES SOLD IN THE UNITED STATES AND CANADA**

BRP US Inc.* ("BRP") warrants its Evinrude®/Johnson® Genuine Parts and accessories ("Product") sold by authorized Evinrude® or Johnson® dealers in the fifty United States and Canada from defects in material or workmanship for the period and under the conditions described below. This limited warranty does not apply to Products not bearing the Evinrude® or Johnson® trademarks that are made by other manufacturers. This limited warranty extends to the original retail purchaser only ("Purchaser") and is not transferable to any subsequent owner. This warranty is available only on Products purchased as new and unused from a dealer authorized to distribute the Products in the country in which the sale occurred ("Dealer").

- Aluminum propellers, plastic propellers, stainless steel propellers, Snap-In® control cables and Dura-Tank™ fuel tanks are warranted for THIRTY-SIX (36) CONSECUTIVE MONTHS from the date of purchase.
- ICON™ engine control systems and components are warranted for THIRTY-SIX (36) CONSECUTIVE MONTHS from the date of purchase.
- Powerhead assemblies are warranted for a period of TWELVE (12) CONSECUTIVE MONTHS from the date of purchase.
- All other Products are warranted for a period of TWELVE (12) CONSECUTIVE MONTHS from the date of purchase unless purchased at the time of the engine sale and listed on the Bill of Sale (BOS).
- Evinrude®/Johnson® Genuine Parts accessories sold and rigged by an authorized Evinrude® or Johnson® dealer in the fifty United States and Canada and listed on the BOS at the time of the engine sale will carry the same THIRTY-SIX (36) CONSECUTIVE MONTH warranty as the BRP US INC. LIMITED WARRANTY FOR Evinrude® OUTBOARD ENGINES. Consumers must retain their BOS and present it to the servicing authorized Evinrude® or Johnson® dealer in order for the accessory warranty to be valid.
- All products purchased for COMMERCIAL USE, or used commercially at any time during the warranty period, are warranted for TWELVE (12) CONSECUTIVE MONTHS from the date of purchase. Product is used commercially when it is used in connection with any work or employment that generates income, during any part of the warranty period. Product is also used commercially when, at any point during the warranty period, it is installed on a boat that has commercial tags or is licensed for commercial use.

Limited Warranty for Allied Lines of Marine Accessories (not branded by Evinrude® or Johnson®)

Certain marine accessories in the Evinrude®/Johnson® Genuine Parts and Accessories Catalog are not sold under the Evinrude® or Johnson® brand names. These allied lines of marine accessories are located in the rear of the catalog and are identified by manufacturer or brand names (e.g. Teleflex®, Perko®, etc.). Warranty and product support for these marine accessories that are not branded by Evinrude® or Johnson® will be administered by the respective manufacturer. All inquiries to BRP US Inc. regarding these marine accessories will be directed to the proper manufacturer. To ensure faster and more direct response to warranty and product issues for these marine accessories please refer to the enclosed list and contact information. DO NOT return defective items or file a warranty claim with BRP US Inc. Warranty Department. Please contact the manufacturer directly. All of the marine accessories sold through this catalog come with a warranty established by the manufacturer. Statements of those warranties can be found on the packaging material packed with the product.

Vintage Parts

Parts identified as Vintage Parts in the catalog and in the BRP US Inc. Master Parts Price Book are not covered by BRP US Inc. Limited Warranty for Evinrude®/Johnson® Genuine Parts and Accessories. Vintage Parts are sold without warranty, but may be returned in certain circumstances. See the section on returns for conditions on return of Vintage Parts.

The following are not warranted under any circumstances: (a) normal wear and tear; (b) routine maintenance items including, but not limited to, adjustments, oil changes, water pumps, carburetor maintenance, spark plug replacements, etc.; (c) cosmetic damage or paint changes due to exposure to the elements; or (d) damage caused by: improper or lack of installation, maintenance, winterization and/or storage; failure to follow the procedures and recommendations in the Operator's Guide; removal of parts, improper repairs, service, maintenance, or modification; use of parts or accessories not manufactured or approved by BRP that are either incompatible with Product or adversely affect its operation, performance, or durability; repairs done by anyone, including Purchaser, other than an authorized Dealer; abuse, misuse, abnormal use, neglect, racing, improper operation or operation of Product in a manner inconsistent with the Operator's Guide; external damage, accident, submersion, water ingestion, fire, theft, vandalism or act of God; operation with fuels, oils or lubricants not suitable for use with Product (see Operator's Guide); rust or corrosion; or cooling system blockage by foreign material.

This warranty will be voided in its entirety and rendered null and void: (a) where Product has been altered or modified in such a way so as to adversely affect its operation, performance or durability, or has been altered or modified to change its intended use; or (b) where Product is or has been used for racing or any other competitive activity, at any point.

ALL WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED IN DURATION TO THE LIFE OF THIS EXPRESS LIMITED WARRANTY. ALL INCIDENTAL, CONSEQUENTIAL, DIRECT, INDIRECT OR OTHER DAMAGES OF ANY KIND ARE EXCLUDED FROM COVERAGE UNDER THIS WARRANTY INCLUDING, BUT NOT LIMITED TO: expense for gasoline, expense for transporting Product to and from Dealer, removal of Product from a boat and reinstallation, mechanic's travel time, in-and-out-of water charges, slip or dock fees, trailering or towing, storage, telephone, cell phone, fax or telegram charges, rental of a like or replacement Product or boat during warranty services or down time, taxi, travel, lodging, loss of or damage to personal property, inconvenience, cost of insurance coverage, loan payments, loss of time, income, revenue, profits, enjoyment or use of Product.

SOME JURISDICTIONS DO NOT ALLOW FOR THE DISCLAIMERS, LIMITATIONS OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR OTHER EXCLUSIONS IDENTIFIED ABOVE. AS A RESULT, THEY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC RIGHTS, AND YOU MAY ALSO HAVE OTHER LEGAL RIGHTS THAT MAY VARY FROM JURISDICTION TO JURISDICTION.

Purchaser must bring the Product, including any defective part therein, and proof of purchase of the Product (original bill of sale) to Dealer promptly after the appearance of the defect and, in any event, within the warranty period. Purchaser must sign the repair/work order prior to repair to validate warranty coverage and must provide BRP/Dealer with a reasonable opportunity to repair/replace the defective part. All replaced parts become the property of BRP.

BRP's obligations under this warranty are limited to, at its sole discretion, repairing or replacing parts of Product found to be defective in material or workmanship, in BRP's reasonable judgment. Repair or replacement of parts will be without charge for parts and labor, at any authorized Dealer. No claim of breach of warranty shall be cause for cancellation or rescission of the sale of Product to Purchaser. BRP reserves the right to improve, modify or change Products without assuming any obligation to modify Products previously manufactured. If warranty service is required outside of the fifty United States or Canada, Purchaser will bear responsibility for any additional charges due to local practices and conditions including, but not limited to, freight, insurance, taxes, license fees, import duties, and any financial charges levied by governments, states, territories and agencies.

No distributor, Dealer or any other person is authorized to make any affirmation, representation or warranty regarding Product other than those contained in this limited warranty and, if made, shall not be enforceable against BRP. BRP reserves the right to modify this warranty at any time, being understood that such modification will not alter the warranty conditions applicable to the Products sold while this warranty is in effect. For assistance, please contact BRP US Inc. Consumer Support, P.O. Box 597, 10101 Science Drive, Sturtevant, WI 53177, 1-844-345-4BRP (4277) or visit www.brp.com.

The Limited Warranty applies only to Products purchased as new and unused from a distributor or dealer authorized to distribute Products in the country in which the sale occurred.

If warranty service is required outside of the country of original sale, Purchaser bears responsibility for any and all charges due to local practices and conditions that exceed or are in addition to customary charges in the country of sale, such as, but not limited to, freight, insurance, taxes, license fees, import duties, and any financial charges levied by governments, states, territories and agencies.

For assistance, please contact BRP US Inc. Consumer Support, P.O. Box 597, 10101 Science Drive, Sturtevant, WI 53177, 1-844-345-4BRP (4277), or the affiliate of BRP Inc. where the Product was sold to the retail Purchaser.

No other change to the Limited Warranty shall be made or implied.

Effective as of July 1, 2011.

* In Canada, products are distributed and serviced by Bombardier Recreational Products Inc.

® Registered trademark of Bombardier Recreational Products Inc. or its affiliates.
