

Sealants and adhesives

3M

3M 5200FC Marine Sealant adhesive

One-component polyurethane sealant adhesive for permanent bonding. Resistant to weather and seawater.

Does not shrink, can be painted after hardening.

It can be modelled with a brush or spatula within 4 hours of application.

Ideal for sealing and joining: fiberglass deck with fiberglass hull, teak deck with fiberglass hull, engines on crossbeams, portholes and deck accessories.

Code	Package	Colour
65.352.00	296-ml cartridge	<input type="checkbox"/> white

3M 4200FC Marine Sealing adhesive

Single-component polyurethane sealant adhesive for general purposes, polymerizes with moisture creating flexible bonds with good adhesion on wood, fiberglass, gelcoat, plastics, and metals. It is paintable and sandable.

Weather-resistant and seawater-resistant, ideal for sealing deck accessories and boat joints both above and below the waterline.

Code	Package	Colour
65.342.00	310-ml cartridge	<input type="checkbox"/> white

Power Line 540 polyurethane sealant

High-performance polyurethane sealant, 540 is a one-component moisture curing sealing adhesive ideal for sealing when mechanical fastening is involved.

Code	Package	Colour
65.343.12	310-ml cartridge	<input type="checkbox"/> white

3M 3200 Marine sealing silicone

Silicone sealant, polymerizes with humidity, helps prevent mould formation, resistant to atmospheric agents; ideal for flexible sealing, adheres onto fiberglass, metal, glass, non-oily wood and plastic; its neutral base makes it suitable for fixing glass (does not ruin silver-plating).

Code	Package	Colour
65.309.80	280-ml cartridge	<input type="checkbox"/> white
65.309.81	280-ml cartridge	<input checked="" type="checkbox"/> black

3M Spray 77

Code 65.309.94

Universal adhesive with spray with adjustable band (in width); **can be re-positioned** if applied on both sides. Compatible with rubber, metal, carpet, expanded foam, carton, felt, fabric, wood and any other type of basic material. 500-ml packing.

3M Spray 90

Code 65.309.93

Synthetic adhesive spray device for gluing polyurethane foam, rubber surfaces, joints made of rubber, plastic, metal, fiberglass and wood. 500-ml packing.
