## Neon Light flexible LED strip, even light

IP65

10x10 mm **square section** version with silicone body. 3-m bars.
They can be cut every **5 cm**.
Ideal to be integrated into the **cabin roof** for diffused and uniform light.
For **interior and exterior applications**.
Accessory line for universal applications.

SMD LED strip light, semi-rigid version

IP65

Flexible **self-adhesive** aluminium base. The strips can be **combined** head to head by means of their male/female end plug or can be cut every 100 mm thus obtaining the length needed.

Code	V	W	lumen	K	LED beam angle	No of LEDs	LED colour	Length mm	↔ mm
13.834.20	12	3.6	330	3000	120°	30	white	500	10x3
13.834.21	12	3.6	100	-	120°	30	blue	500	10x3
13.834.22	24	3.6	300	3000	120°	30	white	500	10x3

Profile to embed LED strips

This profile is sold in bars and consists of a base to be fixed to the wall and a translucent methacrylate covering. LED strips not exceeding 12-mm width can be placed inside.
The bars can be aligned to get any legnth or cut to measure.
