Heavy Duty New Edge recess-fit hose connector for fresh water

QUICK SWIVEL CONNECTION

PRESSURE REDUCING VALVE

Ideal when you want to use quayside fresh water: it reduces the pressure to 3 bars not to damage the pipes by means of an innovative compact system fitted with adjustable pressure regulator and brass check valve. The quayside water pipe snaps into a gardening-like hose connector (see code 36.189.02). BSP male 3/4" outlet thread.

The dock water pipe snaps into place via a gardening-type fitting (code 36.189.02). 3/4" BSP outlet thread.
