Fender covers

Extra soft fender cover

Cut-to-size head and bottom adjustable by means of strap and cam cleat. Made of soft texturized and elastic polyester fibre with anti-abrasion weaving. They cover the fenders perfectly, are UV-resistant and washable.

Neoprene fender covers

Fender covers made of closed-cell neoprene with a thickness of 3 mm. Extremely resistant, non-absorbent and reversible. The material also provides high UV protection and prevents fading. They can be used in both directions (inside/outside) as they are finished in the same way to allow for dual color choice (double face).

Code	Model	Colour	Ø mm
