## YACHTICON rust and stain solvent

**Code 65.103.10**

It easily removes heavy rust stains from gelcoats, metal or paints without the need to scrub.
**500 ml pack.**

## YACHTICON stain remover for mould and rust

**Code 65.103.00**

For spraying fibreglass, vinylic resin and other surfaces, removes rust leaks and stains, disinfects toilets and other areas wherein hygiene is very important; the product shall be sprayed onto a surface, left to penetrate and then rinsed.
**500 ml pack.**

## YACHTICON insect repellent spray

**Code 65.282.30**

Sprayed on the boat surfaces or on bimini tops, the natural substances contained in this product keep insects away for long periods of time.
**500 ml pack.**

## YACHTICON sealant

**Code 65.103.20**

Used for stitchings, to waterproof stitches on boat awnings, canopies and clothes; ready for use, long lasting.
**Package of 100 ml.**

## YACHTICON Fabric Waterproof spray

**Code 65.102.80**

Cleans, restores and make waterproof surfaces for sail decks, canopies, boat awnings, etc; does not alter the colour, suitable for synthetic and natural fabrics.
**400 ml pack.**

## YACHTICON fabric cleaning and waterproofing agent

**Code 65.102.81**

It cleans and waterproofs biminis, awnings, tents and make the fabric breathable. For cotton and synthetic fabric. On this latter, it prevents electrostatic charges. 1-l package.
**1 l pack**

## YACHTICON winch spray grease

**Code 65.170.00**

lubricates and protects gears; reduces friction and abrasion; resistant to salt water and temperatures of -30° + 130°. Bottle filled with ecological gas.
**200 ml package.**

## YACHTICON Multi-Purpose Grease

**Code 65.211.83**

Multipurpose grease, lubricates, protects and preserves the condition of travellers, slides, joints, couplings, cursors, etc. Seals and penetrate forming a waterproofing film; resistant to temperature of -20° + 80°; prevents seizures and is not removed from water; maintains viscosity and consistency in any condition.
**250 ml pack.**

## YACHTICON Multipurpose Winch Grease

**Code 65.211.84**

Lubricates, preserves and protects; penetrates surfaces forming a protective film, resists temperature of -30° + 130°. Resistant to salt water, corrosion and bad weather; maintains its viscosity and consistency under any condition. Ideal for winch gearing, remote control cables, travellers, sheets, pulleys, hinges, sliding door guides, gas hand grips, etc.
**Pack of 250 g.**

## YACHTICON teflon-based lubricant

**Code 65.211.85**

highly effective lubricant for all kind of materials heavy-duty formula lubricates anything that squeaks no silicone, no CFC's premounted spray-tube for precise spraying long lasting protects against wear and corrosion.
**300 ml pack.**

## YACHTICON Marine Wax (carnauba wax)

**Code 65.273.50**

High quality carnauba wax mixed with artificial wax; **non** abrasive, protects gealcoats and painted surfaces; contains UV ray inhibitors.
**300 ml pack.**

## YACHTICON Anti Barnacle protective grease

Special grease used to prevent encrustations and algae formation on propellers, propeller's shafts, stern drives, transducers, sea-cocks, etc; anti-corrosive inhibitors, can be applied on all surfaces, biodegradable product.
